

Mississippi Department of Mental Health
Provider Bulletin
Number IO0041

Subject: DMH Agency Certificates	Issue Date: February 9, 2015 Effective Date: N/A
---	---

Scope

All DMH Certified Providers

Purpose:

To provide clarification on DMH Agency and location certificates issued for the current certification period ending in 2017.

Subject:

Certificates issued for the current certification period include the following types of certificates:

- Agency Certificate
- Satellite Office Certificate(s)
- Program Specific Certificates

Agency Certificates

The purpose of the Agency Certificate is to identify all services that the agency is certified by DMH to provide. Services that do not have program locations (for example, Community Support Services or Home and Community Supports) are covered by the Agency Certificate.

Satellite Office Certificate(s)

In addition to the Agency Certificate, agencies have been issued Satellite Office Certificates for office locations outside of the agency's main office. With the exception of program specific locations, services identified on the Agency Certificate can be provided under the Satellite Office Certificate. Services that do not have program locations (for example, Community Support Services or Home and Community Supports) are covered by both the Agency Certificate and the Satellite Office Certificate.

Program Specific Certificates

Program specific locations have been issued individual certificates that include the service(s) that can be provided at that location, program name, program address, and capacity.
