Other programs may voluntarily apply for this certification. Certification by the Mississippi Department of Mental Health may involve the entire service provider or particular programs or service areas (i.e. residential services, DUI assessment, outpatient services, etc). The service providers listed in this directory are certified by the Mississippi Department of Mental Health.

ALCOHOL AND DRUG PREVENTION AND TREATMENT SERVICES

SERVICE SYSTEM

The Department of Mental Health, Bureau of Alcohol and Drug Services (BADS), administers the public system of substance use assessment, referral, prevention, treatment and recovery support services for individuals in Mississippi. BADS is also responsible for establishing, maintaining, and evaluating the network of service providers, which includes state-operated facilities, regional community mental health centers, and other nonprofit community-based programs.

The overall goal of the state's substance abuse service system is to provide a continuum of community-based, accessible services, including, prevention, outpatient, withdrawal management, community-based primary and transitional residential treatment, inpatient and recovery support services. The Bureau includes two divisions: the Division of Prevention Services and the Division of Treatment Services.

The Community Mental Health Centers (CMHCs) are the foundation of the substance abuse delivery system. The fourteen (14) regional centers provide a variety of prevention and treatment services. In addition, some centers offer services for specialized populations such as children and adolescents, the elderly and pregnant/parenting women.

There are also a number of other public and private agencies that provide prevention and treatment services. These entities also provide services for special populations and may receive funding from other state agencies, community service agencies or donations.

The following programs are certified to provide Opioid Treatment services by the Mississippi Department of Mental Health:
