

CELEBRATING *Mississippians with Intellectual and Developmental Disabilities*

Almost 90% of the North Mississippi Regional Center (NMRC) volunteers are students from the University of Mississippi, Northwest Community College, and local High School Seniors. The other 10% consists of former NMRC employees and retired individuals within the Oxford/Lafayette county area. The peak months for volunteers are August, September, January and February with approximately 7 new volunteers signing on each month. On average, 3 student-athletes from the University of Mississippi per semester intern at NMRC. The NMRC residents love the volunteers and enjoy spending time with them and participating in a variety of activities.
