

CELEBRATING

Mississippians with Intellectual and Developmental Disabilities

Bob Hand

As you enter the Walmart garden center in Meridian, one of the first friendly faces you encounter is Bob Hand. Although he is a man of few words, Bob is quick with a smile and a compliment which makes him a favorite among his co-workers.

Bob was recently honored for his 17 years of employment at Walmart, but this job was not his first. He began his employment in the restaurant industry, but the late hours sparked a desire to change his career and Walmart was

the perfect fit. Dedication defines Bob as he arrives at work by 6:30 a.m. every morning so he can grab a quick cup of coffee before heading to the garden center. Bob's goal is to be hardworking and helpful to all.

When not at work, Bob loves to watch the Turner Classic Movie channel and especially enjoys trying out new places to eat. When asked what he would like to change about the world he simply replied, "I would keep it the way it is because it's safe and has nice clean air." This sums up Bob's positive attitude which is what keeps him happy and loved by all who are blessed with the opportunity to know him.
