Standard SOR WITS End User Guide_Release 19.9

*Standard SOR End
User Guide*

Applies to:

WITS Version 19.9.0

WITS Customers

Last Updated January 2020

Version 4

WITS Customers

State Opioid Response (SOR) Grant

Preface

"The State Opioid Response (SOR) program aims to address the opioid crisis by increasing access to medication-assisted treatment using the three FDA-approved medications for the treatment of opioid use disorder, reducing unmet treatment need, and reducing opioid overdose related deaths through the provision of prevention, treatment and recovery activities for opioid use disorder (OUD) (including prescription opioids, heroin and illicit fentanyl and fentanyl analogs)."¹

Intended Audience

This Standard SOR user guide has been prepared for provider agency staff members delivering SOR services to individuals. Information included will assist providers in understanding the standard WITS SOR system and the data entry requirements for the SOR grant.

Note: Screen captures, and other information included in this Standard SOR user guide may differ based on the settings established for your Training and/or Production site(s).

System Requirements

WITS is a web-based application accessed through an Internet (web) browser using an Internet connection.

Internet Browsers

WITS is compatible with up-to-date versions of most modern Internet browsers such as:

- Apple® Safari®
- Google Chrome™
- Mozilla® Firefox®
- Windows Internet Explorer 10 or newer (*recommended*)

Note: Do not allow your Internet browser to save your password, as this information will be routinely updated.

Pop-up Blocker

Certain features in WITS, such as Snapshot and Scheduler, will open in a separate browser window when selected. Make sure your browser allows pop-ups from WITS.

Customer URL Links

Training Site:

Production Site:

Note: The **Training Site** allows staff members to practice using the system before entering actual data in the Production Site. **Do not enter real client information in the training site.**

Documentation Updates

Version 4 (WITS 19.9.0) (Current Version)

The following topics have been added in this documentation version.

- **GPRA Follow-up Due Summary Screen** (Part 4: GPRA Interviews on page 33)
- **GPRA Follow-up Due Detail Screen** (Part 4: GPRA Interviews on page 37)
- **GPRA Discharge Due Screen** (Part 4: GPRA Interviews on page 44)
- **Intake Close Processor** (Part 1: Customer Specific Information on page 3)
- **Prepopulate Behavioral Health Diagnoses screen with Medications from Encounter** (Part 4: GPRA Interviews on page 41 and on page 47)

Version 3 (WITS 19.8.0)

The following topics have been added in this documentation version.

- Added confirmation screen upon completing GPRA Follow up interview within window to automatically create a GPRA Discharge with the same interview information. (Part 4: GPRA Interviews, on page 43)
- Added information about **GPRA Discharge Services Received** section populated with encounter information. (Part 4: GPRA Interviews, on page 49)

Version 2 (WITS 19.6.0)

The following topics have been added in this documentation version.

- **Updated Standard SOR Workflow Diagram** (Part 1: Customer Specific Information on page 1)
- **Grant Episode Concepts** (Part 1: Customer Specific Information on page 2)
- **GPRA Interviews** (Part 4: GPRA Interviews on page 27)
 - GPRA Intake Interview
 - GPRA Follow Up Interview
 - GPRA Discharge Interview

Note: Notes contain information for users to take note of, as the information may affect what the user does with the system.

Tip: Tips contain information helpful to the user, such as providing an easier way to do something.

Important: Typically, these highlight details for the user to consider or review before continuing with a step or action within the system. This information may warn the user about possible error messages that may occur if the instructions are not followed, or it may indicate/remind users of additional actions to take before proceeding, such as downloading required software.

Part 1: Customer Specific Information

WITS allows providers to easily enter information for individuals and services they receive as part of the SOR program.

- The initial provider agency that works with an individual will create the client profile, intake, and enroll the client into a SOR program.
- If the provider agency needs to refer an individual to another provider for services, WITS has an automated consent/referral process that is HIPAA/42 CFR Part 2 compliant. Once the referred-to service provider accepts the referral, WITS will automatically set up the client profile, intake and SOR program enrollment.
- In the future, once SAMHSA has OMB certification for the GPRA, the initial agency can enter GPRA or the referred-to agency can enter the GPRA. WITS will ensure that there are no duplicate GPRA created for individuals enrolled in the SOR program. Also, if the providers have entered encounters, WITS will map those encounters to the SOR discharge GPRA.

Workflow Diagram

The following diagram illustrates the standard SOR workflow process.

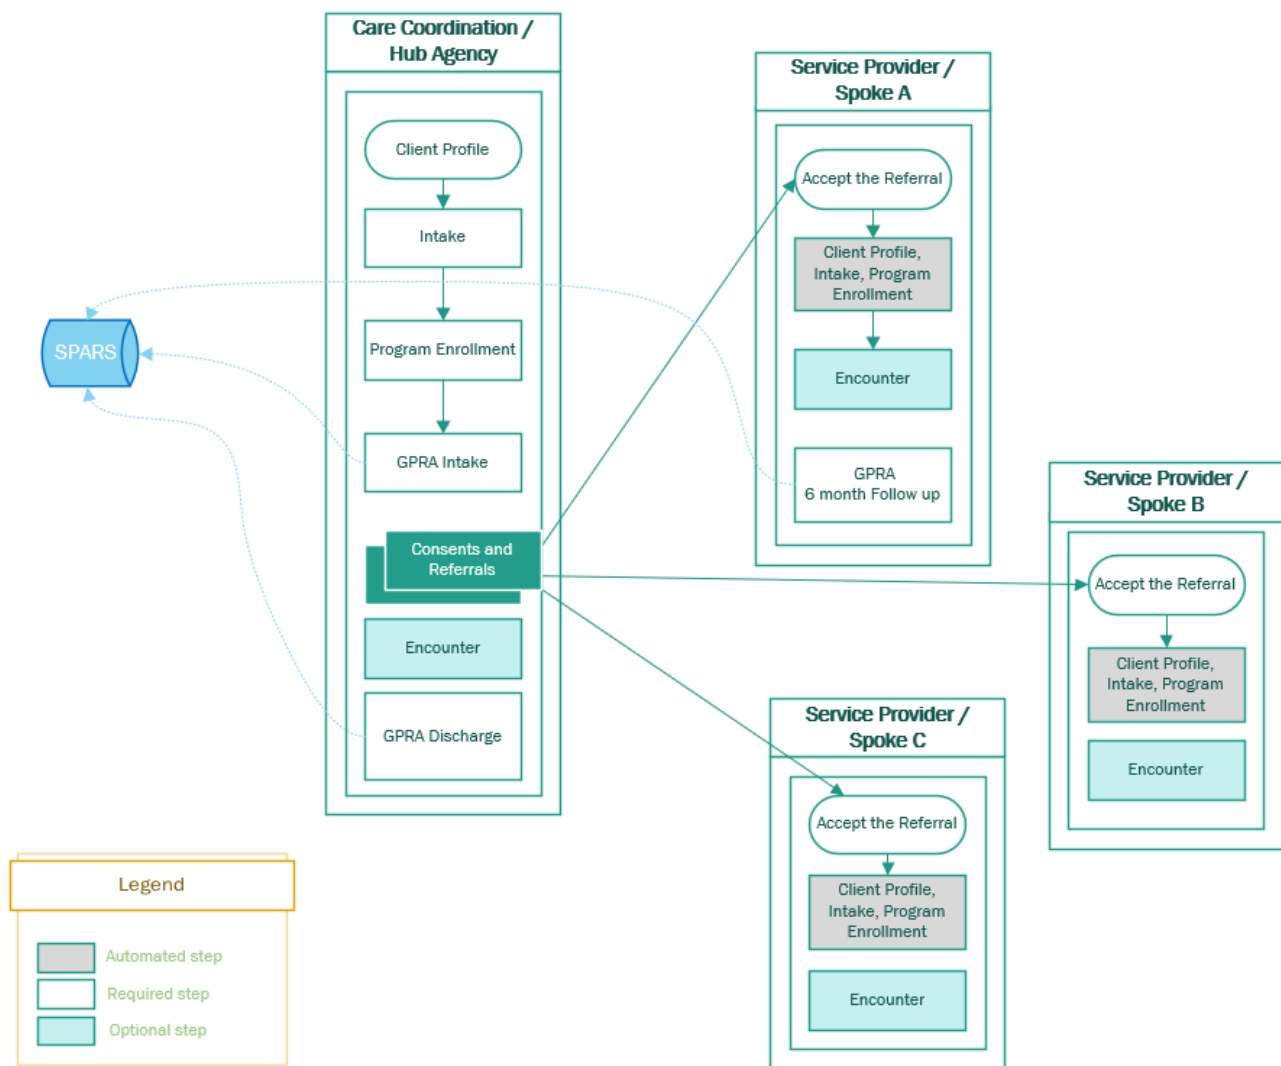

Figure 1-1: Standard SOR Workflow Diagram

Grant Episode Concepts

Where: [Agency](#) > [Agency List](#) > [Facility List](#) > [Programs](#)

Background

When a client's GPRA interviews are completed, they are sent to SPARS. Each type of GPRA Interview (Intake, 6-Month follow up, Discharge) is sent automatically as an upload from WITS. If the same type of GPRA is sent twice (for example, if two GPRA Intakes are completed), SPARS will inactivate the first GPRA Intake interview when the second is completed. In order to prevent older interviews being inactivated in error, WITS now has a grant episode.

Grant Episode Concepts

Table 1-1: Grant Episode Events and Information

Event	Information
GPRA Menu Item	The ability to enter a GPRA in WITS only becomes available when a WITS client program enrollment (CPE) exists where the associated program has a value in the Grant field and the end user has the GPRA (Full Access) security access role.
Grant Episode	<p>This allows the client to be referred to other agencies and have the same grant episode. If Agency A completes the GPRA Intake and then refers the client to Agency B, Agency B will be able to continue the grant episode and complete the GPRA 6-Month Follow Up and GPRA Discharge interviews for the same client. This will prevent another agency from inadvertently inactivating the previous GPRA Intake because the grant episode will remain assigned to this client in other agencies.</p> <ol style="list-style-type: none"> 1. The Grant Episode is created and put into a 'Pending' status when the Client Program Enrollment (CPE) is created for a program with a Grant field value. 2. The Grant Episode follows the client's UCN throughout the process of creating GPRA's. 3. The 'Pending' grant episode will become 'Active' once the GPRA Intake interview is completed. 4. It will remain active through the 6-Month Follow-Up and Discharge interviews. 5. Once all 3 interviews are completed, the Grant Episode will have a status of 'Closed.' 6. Once the Grant Episode is 'Closed', a new 'Pending' Grant Episode can then be created if the client needs treatment again. 7. The WITS Administrator could change Grant Episode from 'Active' to 'Inactive' (this can be done upon creation of a client program enrollment within a different agency)

WITS Administrator Process

Use Case: Client with GPRA intake at one provider goes to another provider without a WITS consent/referral

1. If the client goes to another provider who attempts to add a Client Program Enrollment in SOR and that client/UCN already has an 'active' grant episode, the system will prohibit this.
 - The provider/user will be presented with a WITS error message to contact their WITS Administrator.
2. The WITS Administrator would then be able to determine if the client program enrollment can be added within the agency by either continuing the existing episode or creating a new episode (which will inactivate the previous episode)

Intake Close Processor

For customers only using SOR, the **Intake Close Processor** is a scheduled task that runs every night to automatically close client intakes. Client intakes will be closed when all Client Program Enrollments are for a closed or inactive grant episode and there has been no activity within that client intake (no encounters saved or updated) for a certain number of days. The default number of days is set to 45, but the number can be changed in a site's configuration.

Important: The Intake Close Processor applies to SOR only customers.

Part 2: Client Setup

Search for a Client

Where: *Client List Screen*

Before creating a new client record, search for your client to make sure the client is not already in WITS.

1. To view clients within your agency, click on the **Client List** menu item. A blank Client List screen will appear.
2. Use the fields in the **Client Search** section to narrow your results.

Tip: When searching for a client, try to use unique information, such as birthdates or social security numbers, if possible. You can also enter a partial name (or other field) followed by a "*". This is called a **wild card search**. For instance, if you search for Last Name of "Smit*", the search results will display people with the last name of "Smith", "Smitty", "Smithson", etc.

3. After selecting from the search fields, click **Go** to view the results.

4. Look for your client in the **Client List**. If you find the right person, view their profile by pointing to the pencil icon in the Actions column and clicking the **Profile** link. If you do not find your client, you can create a new client record.

Client Search Tips

Client Name or Number

Use a client's nickname or alternate names in the **First Name** or **Last Name** fields.

Use an **asterisk (*)** to perform a wildcard search.

Examples:

- Find clients whose last name starts with "Jon": Jon*

Client Search			
Agency	Administrative	Facility	<input type="text"/>
First Name	<input type="text"/>	Last Name	Jon* 
SSN	<input type="text"/>	DOB	<input type="text"/>

- Search by the last 4 digits of a client's SSN: *1123

Client Search			
Agency	Administrative	Facility	<input type="text"/>
First Name	<input type="text"/>	Last Name	<input type="text"/>
SSN	*1123 	DOB	<input type="text"/>

Client Birthday or Age

Search within a timeframe by separating the two dates with a **colon (:)**. Search for clients born after a certain date with a **greater than sign (>)**. Search for clients born before a certain date with a **less than sign (<)**.

Examples:

- Find clients born in the year 1990: 1/1/1990:12/31/1990

Client Search			
Agency	Administrative	Facility	<input type="text"/>
First Name	<input type="text"/>	Last Name	<input type="text"/>
SSN	<input type="text"/>	DOB	1/1/1990:12/31/1 

- Find clients born after a certain date: >12/30/1959

Create Client Profile

Where: [Client List](#) > [Client Profile](#)

To add a new client to the system, follow the steps below.

Note: Please search for each client before creating a new record.

1. On the left menu, click **Client List**.
2. On the Client List screen, click **Add Client**.

Figure 2-2: Client Search/List screen; Add Client link

3. On the **Client Profile** screen, enter the required client information. See the table below for information on each field.

Important: When adding new clients to the system, review the Client Profile fields for accuracy before saving the screen. Once the Client Profile screen is saved, a Unique Client Number (UCN) is created based on the data provided. It is important to enter client information correctly to avoid duplicate client entry in the future.

Table 2-1: Client Profile fields

Field	Description
First Name	Type the client's current first name.
Middle Name	(Optional)
Last Name	Type the client's current last name.
Mother's Maiden Name	(Optional)

Field	Description
Suffix	(Optional)
Gender	Select the client's gender from the drop-down list.
DOB	Enter the client's date of birth.
SSN	Type the client's Social Security Number.
Driver's License and State	(Optional) Type the number and then select the State from the drop-down list.
Has paper file	(Optional) Select Yes or No. Field defaults to Yes.
Provider Client ID	(Optional)

Figure 2-3: Client Profile screen

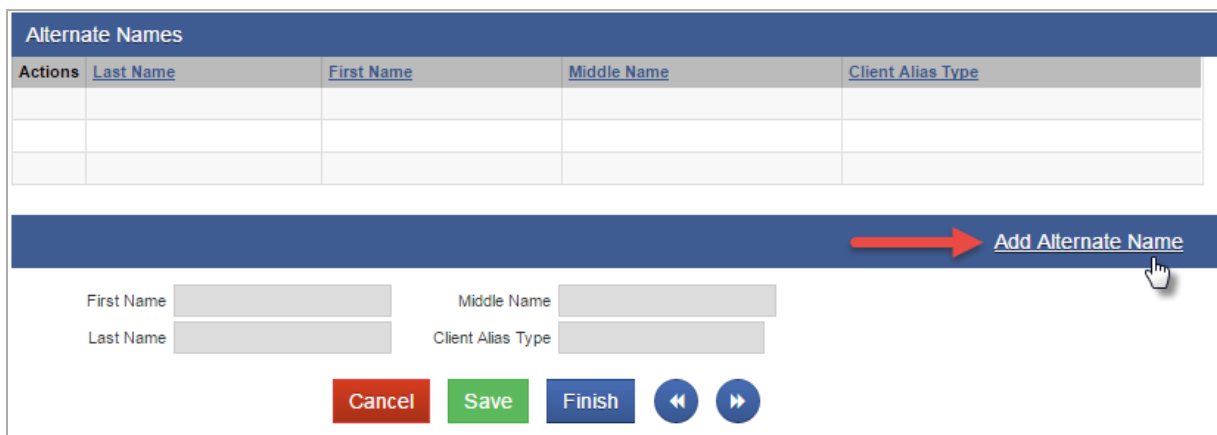

- Click **Save**.
- Click the **right-arrow** to move to the **Alternate Names** screen.

Alternate Names

The client's nickname or street name may be entered on this screen

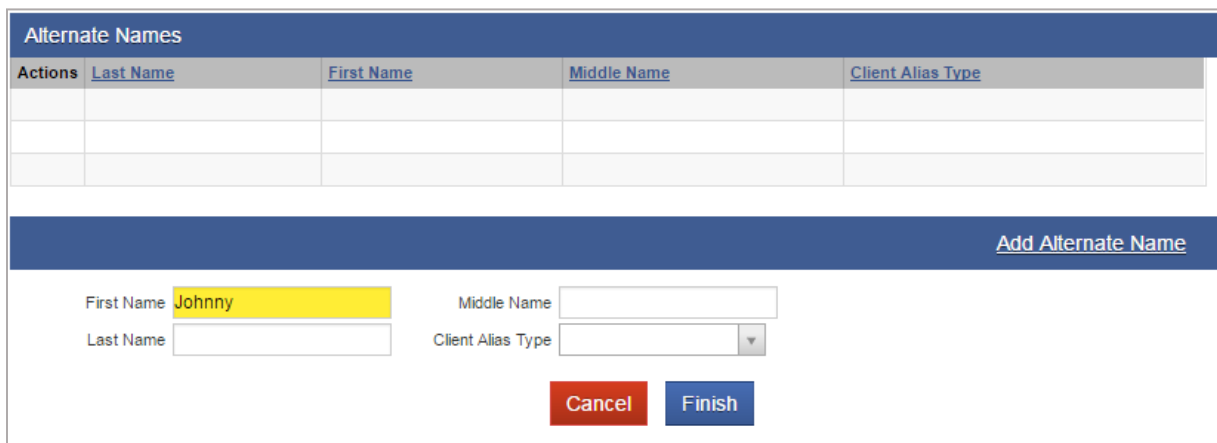

i Tip: Alternative names can also be used to search for the client's profile in the future. On the Client Search screen, type the client's alternative name in the First Name and/or Last Name fields.

1. On the Alternate Names screen, click **Add Alternate Name**, and the bottom half of the screen becomes editable.

The screenshot shows the 'Alternate Names' screen. At the top is a table with columns: Actions, Last Name, First Name, Middle Name, and Client Alias Type. Below the table is a blue bar with the text 'Add Alternate Name' on the right, which is highlighted by a red arrow. Below this bar are four input fields: First Name, Middle Name, Last Name, and Client Alias Type. At the bottom are four buttons: Cancel (red), Save (green), Finish (blue), and two circular navigation buttons (left and right arrows).

2. Complete at least the **First Name** field.

The screenshot shows the 'Alternate Names' screen with the 'First Name' field filled with the text 'Johnny'. The 'Add Alternate Name' button is still visible at the top right. The 'Cancel' and 'Finish' buttons are visible at the bottom, while the 'Save' button is no longer present. The navigation buttons are also present.

3. Click **Finish**. The name will now appear in the list at the top of the screen.
4. From the Alternate Names screen, click the **right-arrow** button to open the **Additional Information** screen.

Additional Information

1. On the **Additional Information** screen, complete the light-yellow fields.

Linked Consents

Where: Client List > Clients with Consents from Outside Agencies

Each time another agency consents client information to your agency, a row will be displayed on the “**Clients with Consents from Outside Agencies**” section of the **Client List** screen. Always look at the linked consents first to make sure you don’t already have that client entered.

If the consent is sent along with a referral and the referral is accepted at the referred to agency, users with a Clinical Supervisor role may manually link and unlink consents. This action is available when it is clear that a client with consented information is in fact the same person as a client that exists in the agency. They may not have been automatically linked because the names or other identifying information may have been different in the sending agency than they are in the receiving agency.

Clients with Consents from Outside Agencies

Actions	Agency	Unique Client #	Client Name	DOB	SSN	Gender
	GREENBRIAR TREATMENT CENTER	F62308138722220	Forrest, Bobby	8/13/1987	121-11-2222	Male

For example:

A client named “Bobby” is referred into your agency from an outside agency. Your agency already has a record for a client named “Robert”. The Linked Consents screen allows you to compare the New/Referred Client Information (Bobby) with the Existing Client Information (Robert). Using this screen, you can tell that Robert and Bobby are the same person and these two profiles can be linked together so the same client won’t have two different client profiles within the same agency.

Link to Consented Client

1. On the left menu, click **Client List** and then click **Go**.
2. In the **Clients with Consents from Outside Agencies** section, hover over the Actions column and click **Link**.

The screenshot shows the 'Client List' screen. On the left is a navigation menu with 'Client List' selected. The main area has a 'Client Search' form at the top with various filters. Below it is a table of clients. The bottom section, 'Clients with Consents from Outside Agencies', contains a table with one row for 'GREENBRIAR TREATMENT CENTER'. A red arrow points to the 'Link' button in the 'Actions' column of this row.

Figure 2-12: Client List screen, Clients with Consents from Outside Agencies section, Link action item

3. The **Link Client Search** screen will appear and the Consented Client information is displayed as read-only fields.

The screenshot shows the 'Link to Consented Client' screen. It displays the client's information: Full Name (Forrest, Bobby), DOB (8/13/1987), Client Number (F62308138722220), and SSN (121-11-2222). Below this is the 'Link Client Search' form, which has the same fields as the search form in Figure 2-12. At the bottom right are 'Clear', 'Cancel', and 'Go' buttons.

Actions	Unique Client #	Full Name	DOB	SSN	Gender

Figure 2-13: Link Client Search screen

- Use the search fields to find a client with similar information. It is helpful to copy and paste some of the consented client's information into the search fields. The example in Figure 2-14 uses the Consented Client's Unique Client Number in the search field.

The screenshot shows the 'Link Client Search' interface. On the left is a navigation menu with options: Home Page, Agency, Clinical Dashboard, Client List (expanded), Client Profile, Linked Consents, Non-Episode Contact, Activity List, Episode List, and System Administration. A red arrow points to the 'Activity List' option. The main area is titled 'Link to Consented Client' and displays client information: Full Name (Forrest, Bobby), DOB (8/13/1987), Client Number (F62308138722220), and SSN (121-11-2222). Below this is the 'Link Client Search' section with input fields for Agency (Administrative Agency), Facility, First Name, Last Name, SSN, DOB, Unique Client Number (F62308138722220), Provider Client ID, and Other Number. There are 'Clear', 'Cancel', and 'Go' buttons. At the bottom is a table with columns: Actions, Unique Client #, Full Name, DOB, SSN, and Gender. The table contains one row of data.

Actions	Unique Client #	Full Name	DOB	SSN	Gender

Figure 2-14: Link Client Search screen, search by Unique Client Number

- After filling out one or more search fields, click **Go** and then review the search results.

This screenshot shows the same 'Link Client Search' interface as Figure 2-14, but with search results displayed in the table. The 'Unique Client Number' field is still populated with 'F62308138722220'. The table now contains one row of results.

Actions	Unique Client #	Full Name	DOB	SSN	Gender
	F62308138722220	Forrest, Robert	8/13/1987	121-11-2222	Male

Figure 2-15: Link Client Search screen with search results

- If the information in the search results matches the Consented Client information, hover over the Actions column and then click **Link**.

Actions	Unique Client #	Full Name	DOB	SSN	Gender
Link	F62308138722220	Forrest, Robert	8/13/1987	121-11-2222	Male

Figure 2-16: Link Client Search screen, Link Consent record

7. Click **Yes**.

Figure 2-17: Are you sure you want to link current consented client to the consent client

8. The client's Linked Consent screen will now display the consent record from the other agency.

	GREENBRIAR TREATMENT CENTER	Forrest, Bobby	F62308138722220	8/13/1987	121-11-2222	7/3/2017	7/3/2017

Figure 2-18: Linked Consents screen

Part 3: Client Intake and Program Enrollment

Client Activity List

It is important to understand that data collection in WITS happens within a Client's Activity List. The Case, or Episode of Care, is the container that holds all client activities. The beginning and end of a client's Episode of Care are recorded on the Intake transaction, where the Intake Date starts the Episode and the Intake Date Closed marks the end of the Episode (these fields are shown in *Figure 3-6: Intake Case Information screen* on page 24).

The concept diagram below illustrates how this data collection is structured within the client Activity List. This Activity List is comprised of two (2) primary nested containers: Episode (e.g., Case, or Intake), and Program. The double lines connecting the Program container represent multiple program enrollments, which are allowed within a single Episode. In the diagram, arrows denote the sequence of progressing through each container.

When an Episode of Care ends for a client, this signifies that the client is no longer receiving services. It's possible for that client to return at a future date.

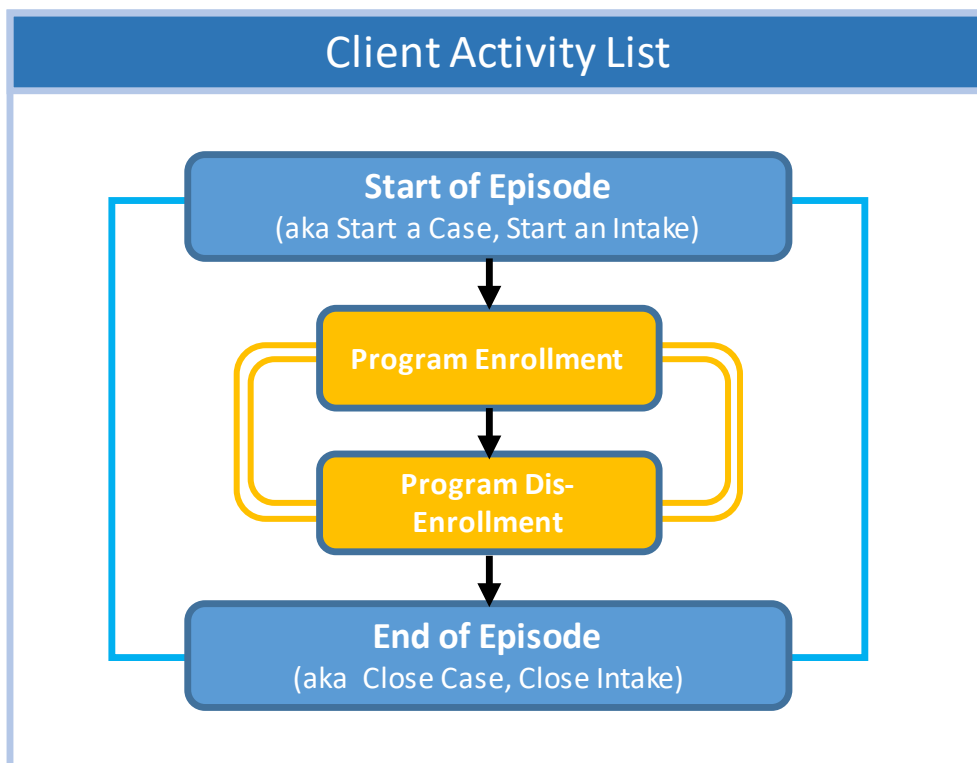

Figure 3-1: Concept Diagram of Data Collection Structure within Client Activity List

The **Client Activity List** can serve as a “dashboard” view for information that has been collected for a given client within an Episode. Each Activity on the Activity List has a status to help the end user determine if that activity is “Complete” or “In Progress”. When an activity is “In Progress”, a **Details** link is available which displays the information needed to complete the activity.

Certain client activities must be complete before you can proceed to a following activity. Validation rules will guide you throughout the workflow as you enter new data.

i To access items within the Activity List, a client must be selected first.

Actions	Activity	Activity Date	Created Date	Status
	Client Information (Profile)	6/23/2017	6/30/2017	Completed
	Intake Transaction	6/23/2017	6/30/2017	Completed
	Screening Tool	6/23/2017	6/30/2017	Completed
	Admission	6/30/2017	6/30/2017	Completed
	Outcome Measures - Client Status (Initial)	6/30/2017		In Progress (Details)

Figure 3-2: Client Activity List, Details link

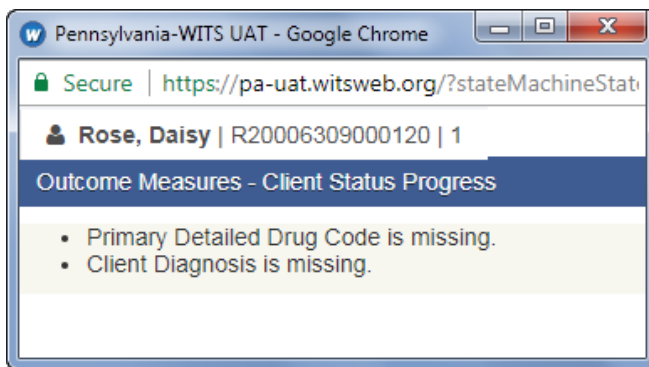

Figure 3-3: Details link, list of missing information

i Some Client Activities do not have a concept of being complete. For those activities, the Status will be listed as Not Applicable.

Start New Episode (New Clients)

 **Where:** *Client List* > *Activity List* > *Episode List*

In WITS, all items located in a client’s Activity List are based upon an active Episode of Care. In the screen capture below, note the Activity List in the left menu only displays one item, “Episode List”. An episode must be created before accessing other items in the client’s Activity List.

To start a new episode of care for a client, follow the steps below.

- 1. On the left menu, click **Episode List**.
- 2. Click the **Start New Episode** link.

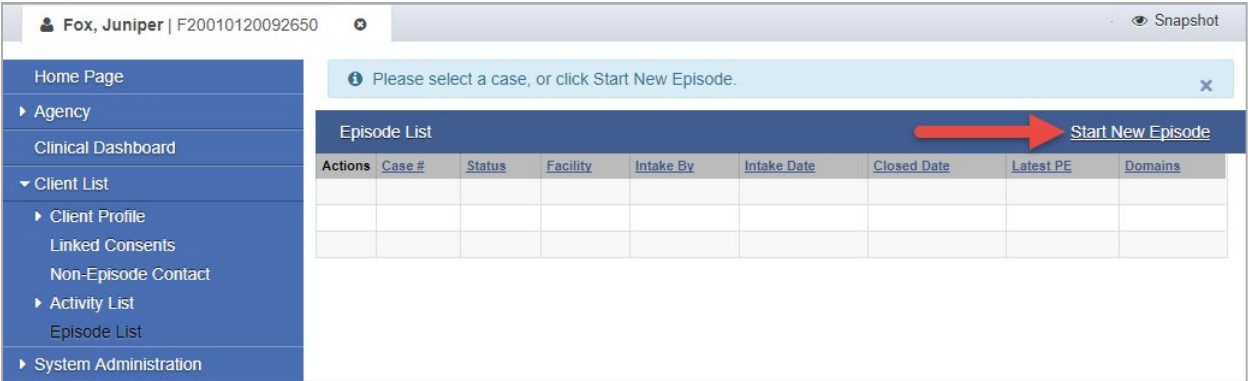

Figure 3-4: Episode List screen, Start New Episode link

If the client profile is missing certain information, such as an Address or fields on the Additional Information screen, a New Episode cannot be created and an error message will appear, as shown in Figure 3-5.

Figure 3-5: Episode List screen, Error Message

If the client profile is complete, clicking **Start New Episode** will open the **Intake Case Information** screen, as shown in Figure 3-6: Intake Case Information screen.

(Continue to next section)

Intake

Where: *Client List > Activity List > Intake*

Once an episode of care has been created (see above section), complete the client's intake.

1. On the Intake Case Information screen, complete the fields as shown in the table below.

Table 3-1: Intake Case Information Fields

Field	Description
Intake Facility	Pre-populates with the current facility location.
Intake Staff	Pre-populates with the current staff member name.
Initial Contact	Select from the drop-down list.
Case Status	Defaults to "Open Active".
Initial Contact Date	The date when the Client first reached out for treatment.
Intake Date	Enter the client's intake date, (which also marks the beginning of the client's Episode).
Residence	Select from the drop-down list.
Source of Referral	Select from the drop-down list.
Referral Contact	(Optional) Select from a list of the client's collateral contacts.
Pregnant	Is the client pregnant at the time of admission? Complete if applicable.
Injection Drug User	Select Yes or No.
Problem Area	(Optional)
Presenting Problem (In Client's Own Words)	(Optional)
Selected Domains	This field will be pre-populated and read-only if there is only one domain associated with the agency. If the agency has multiple domains, select the appropriate domain(s) for the client.
Date Closed Date Closed <input type="text"/>  Save & Close the Case	The Date Closed field is used to mark the end of the client's Episode.

3. Click **Finish**.

Program Enroll

Where: [Client List](#) > [Activity List](#) > [Program Enroll](#)

Once an Intake has been created (see above section), complete the client's program enrollment.

1. On the left menu, click **Program Enroll**.
2. Click the **Add Enrollment** link.

Figure 3-7: Program Enrollment screen

3. Complete fields on the Program Enrollment Profile.

Table 3-2: Program Enrollment Profile fields

Field	Description
Facility	Defaults to the current Facility name.
Program Name	Select the appropriate program for the client
Program Staff	Pre-populates with the current staff member name.
Start Date	Defaults to the current date.
Days on Wait List (TEDS Only)	Type the number of days.
Reason for waiting? (TEDS Only)	<p>If the client had to wait longer than two weeks to access the recommended level of care, select the reason from the drop-down list.</p> <p>This field will be required if:</p> <ul style="list-style-type: none"> • The program enrollment start date is more than 14 days from the most recent ASAM or Placement Summary date. • The LOC associated with the program is different than the Recommended LOC of the most recent ASAM or Placement Summary (consented or client activity).
Notes	Type any notes as needed.

The screenshot displays the 'Standard SOR QA' application interface. The top header includes the WITS logo, version 19.0.0, and the title 'Standard SOR QA'. The user is logged in as 'Jones, Ashley, Clinician' with a 'Logout' button. The sidebar on the left lists navigation options: Home Page, Agency, Client List (expanded), Client Profile, Linked Consents, Non-Episode Contact, Activity List (expanded), Intake, Program Enroll, Encounters, Notes, Consent, Referrals, Episode List, and System Administration. The main content area is titled 'Program Enrollment Profile'. It contains several input fields: 'Facility' (dropdown menu), 'Domain' (dropdown menu), 'Days on Wait List' (text input), 'Start Date' (calendar icon), 'End Date' (calendar icon), 'Program Name' (dropdown menu), 'Program Staff' (dropdown menu), 'Termination Reason' (dropdown menu), and 'Notes' (text area). At the bottom right, there are three buttons: 'Cancel' (red), 'Save' (green), and 'Finish' (blue).

Figure 3-8: Program Enrollment Profile screen

4. Click **Finish**.
5. On the Program Enrollment screen, click **Finish**.

Part 4: GPRA Interviews

 **Where:** [Client List](#) > [Activity List](#) > [GPRA](#)

To access the GPRA section in WITS, select a client from the Client List and then view the client’s Activity List. The GPRA section displays a list of previously entered GPRA interviews (at that agency) and includes link(s) to add a new interview record. For previously entered GPRA interviews, available actions include, View, Edit, and Delete, which are described below in *Table 4-1: Available Actions for GPRA Interviews*.

 **Important:** The GPRA menu item will only appear if:

1.

The staff member completing the GPRA interview has been assigned the following role, “GPRA (Full Access)”. This role is assigned by your WITS or agency administrator.

2.

The GPRA interview is being done for a client who is enrolled in a WITS program associated with the SOR grant. Your WITS administrator should advise you as to which of your agencies’ programs are associated with the SOR grant.

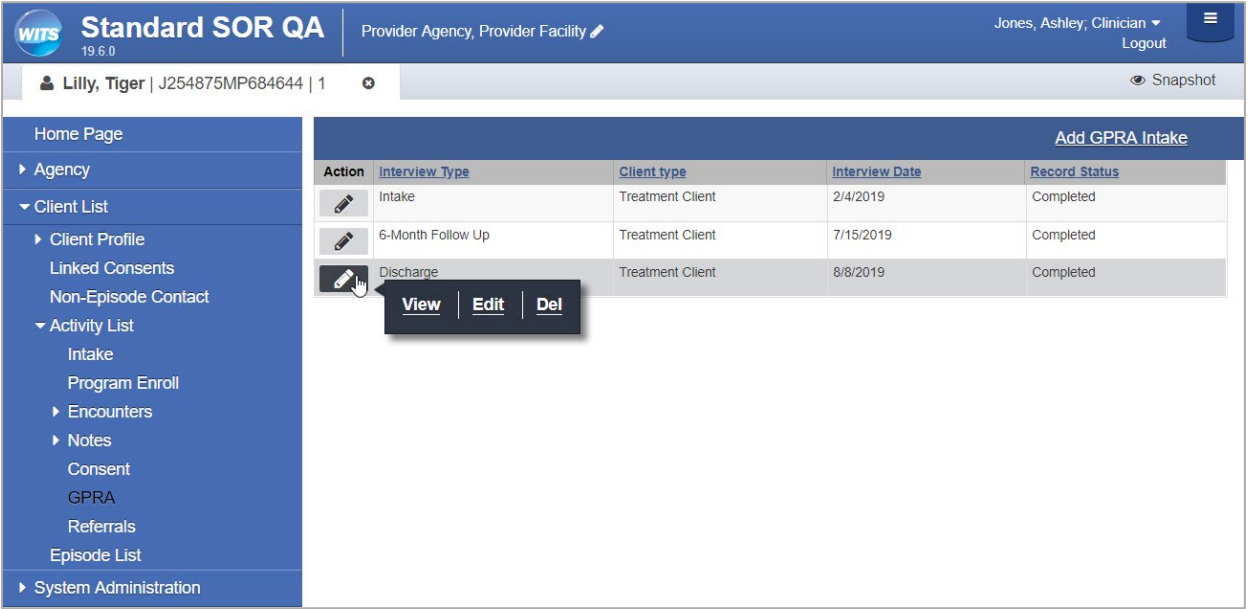

Figure 4-1: GPRA Menu displaying previously entered GPRA Interviews with Actions

 **Tip:** Depending on the existing interview record(s), the choice of adding a GPRA Follow up or a GPRA Discharge is available. The first GPRA Interview that can be added is the GPRA Intake.

Table 4-1: Available Actions for GPRA Interviews

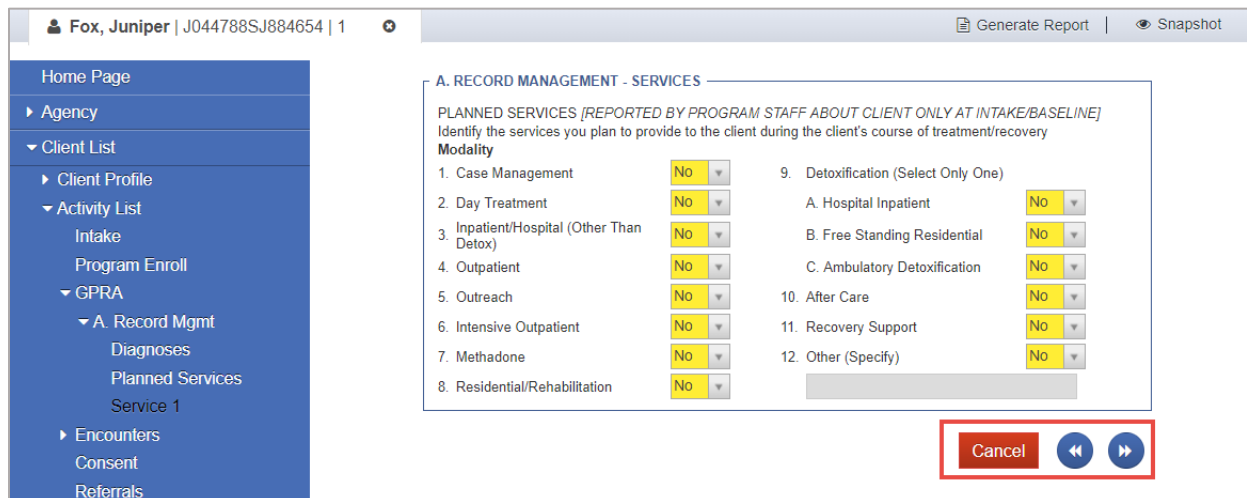

Action	Description
View	Opens the interview in read-only mode.

Action	Description
Edit	<p>Opens the interview in edit mode, where certain fields can be updated. A Save button is available on screen, and when clicked, an information message will appear stating that the record has been successfully updated.</p>  <p>Record updated successfully.</p>
Delete	<p>A confirmation screen will appear, prompting the user to select 'Yes' or 'No' to continue with deleting the record.</p>  <p>If a client has follow-up or discharge interview(s), those interviews must be deleted before the intake interview can be deleted.</p> <p>Before you delete the intake interview, you must first delete the follow-up or discharge interview(s).</p>

Completing Interviews

Action Buttons

GPRA Interviews must be completed in one session and all questions must be answered to save the record. Clicking **Cancel** will cancel adding the GPRA interview. Users progress through the interview by completing the required fields on screen and then clicking the **right-arrow** button to move to the next set of questions. Each field must be completed before moving to the next screen.

Figure 4-2: GPRA Interview Left and Right-arrow Buttons

Users can choose to go back to a prior screen by clicking the **left-arrow** button, however, answers to the current screen will be lost (a confirmation screen will appear, prompting users to select 'Yes' or 'No' before proceeding).

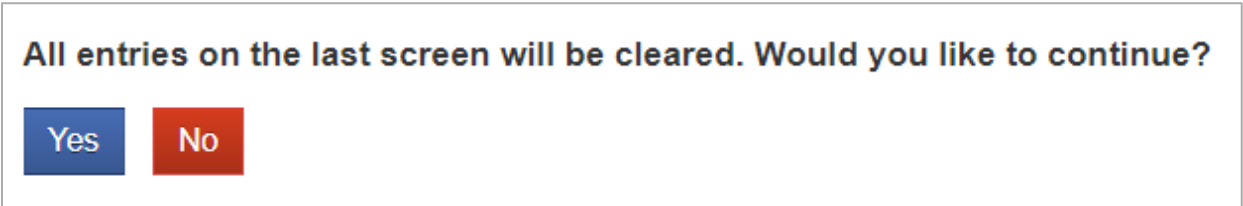

Figure 4-3: GPRA Confirmation message displayed when left-button is clicked

Automation (Skip Logic)

Based on the client’s response to certain questions, the screen will update causing some questions to become required and/or automatically filled in as read-only fields. For example, if the client has not served in the military (answered “No” to Section A Question 5), the system will automatically fill in the other military questions with “Not Applicable”.

A screenshot of a software interface titled "A. MILITARY FAMILY AND DEPLOYMENT". It contains several questions with dropdown menus. Question 5 is highlighted with a yellow background and shows "No" selected. Question 5a shows "Not Applicable" selected. Question 5b is a multi-select question with several options, each followed by a dropdown menu showing "Not Applicable". At the bottom right, there is a red "Cancel" button and two blue circular buttons with left and right arrows.

A. MILITARY FAMILY AND DEPLOYMENT

5. Have you ever served in the Armed Forces, in the Reserves, or in the National Guard? *[IF SERVED]* What area, the Armed Forces, Reserves, or National Guard did you serve?
No

5a. Are you currently on active duty in the Armed Forces, in the Reserves, or in the National Guard? *[IF ACTIVE]* What area, the Armed Forces, Reserves, or National Guard?
Not Applicable

5b. Have you ever been deployed to a combat zone? *[SELECT ALL THAT APPLY]*

Never Deployed	Not Applicable
Iraq or Afghanistan (e.g., OEF/OIF/OND)	Not Applicable
Persian Gulf (Operation Desert Shield/Desert Storm)	Not Applicable
Vietnam/Southeast Asia	Not Applicable
Korea	Not Applicable
WWII	Not Applicable
Deployed to a combat zone not listed above (e.g., Bosnia/Somalia)	Not Applicable

Cancel ◀ ▶

Answers Reviewed

Answers to some questions are also checked with responses given in subsequent sections. For example, the value in field B.1.d (used both alcohol and drugs (on the same day)) should not exceed value in B.1.c (used illegal drugs).

Value in field B.1.d should not exceed value in B.1.c.

B. DRUG AND ALCOHOL USE

1. During the past 30 days, how many days have you used the following:

	# of Days	RF/DK
a. Any alcohol	26	
b1. Alcohol to intoxication (5+ drinks in one sitting)	1	
b2. Alcohol to intoxication (4 or fewer drinks in one sitting and felt high)	2	
c. Illegal drugs	4	
d. Both alcohol and drugs (on the same day)	5	

Cancel

Figure 4-5: Reviewed Answers Example (Section B.), Number of days used alcohol and drugs

You reported that you have used illegal drugs during the past 30 days (B.1.c), then E4 (how many times have you committed a crime) should be no less than B.1.c, since taking illegal drugs is a crime. Do you wish to continue?

GPRA Intake Interview

Where: [Client List](#) > [Activity List](#) > [GPRA](#) > [GPRA Intake](#)

Follow the steps below to add a GPRA Intake Interview.

1. To access the GPRA interview, select a client from the **Client List**, point to the pencil icon in the Actions column, and then click **Activity List**.

2. On the left menu, click **GPRA**.
3. On the GPRA List screen, click **Add GPRA Intake**.

Figure 4-7: Add GPRA Intake

4. The system will display the first of several GPRA Interview screen. Complete the required fields.

Note: The 'Interview Date' must be greater than or equal to client intake date.

The 'Interview Date' must occur during the active period of the selected Program Enrollment (MM/DD/YYYY -).

Figure 4-9: Intake Interview, Summary Screen

GPRA Interview Compliance Details

Grant Requirement

A GPRA Follow-up Interview must be completed with the client 6 months after the GPRA Intake Interview. There is a 3-month window to enter that follow-up interview in WITS and be in compliance with the grant program's requirement. The compliance window opens 5 months after the GPRA Intake Interview and ends 8 months after the GPRA Intake Interview.

Compliance Rate Calculation = Number Compliant /
(Number Compliant + Number Non Compliant + Number Due + Number Missed)

Figure 4-10: GPRA Follow-up Due Diagram

Definitions for each follow-up status are included in the following table.

Table 4-2: Follow up Attendance Definitions

Term	Meaning
Compliant	GPRA Follow-up Interviews entered into WITS during the compliance window specified above are considered compliant. The GPRA follow up interview must be conducted (Was the GPRA interview conducted = Yes) and the interview date must be within the window.
Non-Compliant	GPRA Follow-up Interviews entered into WITS outside of the compliance window specified above are considered non-compliant. This count also includes GPRA Follow-up Interviews that are entered in the system but were not conducted (with no interview date, Was the GPRA interview conducted = No).
Upcoming	Clients with no follow-up interview who have a GPRA intake Interview dated between 5 and 6 months ago (for 6-month follow up) are part of the Upcoming count.

Term	Meaning
Due	Corresponds to the number of clients who have reached the due date (6 months) and do not yet have a GPRA Follow-up Interview record in WITS. This count does not consider the clients who have a corresponding GPRA Discharge Interview with a termination of "Death, Unknown" and "Death, Cause known". This would cover a scenario where a client died before the follow-up became due.
Missed	The clients who do not have a GPRA Follow-up Interview entered into WITS after the end of the window are a part of the Missed count.
New	The Clients who have a GPRA intake Interview, no GPRA Follow-up Interview, and who have not entered in a follow up window yet, are a part of the New count.

GPRA Follow-up Due Summary Screen

Where: [Agency](#) > [GPRA Follow-up Due Summary](#)

The **GPRA Follow-up Due Summary** screen displays a summary view of where an agency stands with their follow up interviews and includes the agency's compliance rate. Users can select from the available search fields and click **Go** to view the search results. Information on these search fields are listed in the table below.

The search results will display a distinct count of GPRA interviews for each follow-up status available at the time of searching. For definitions of each status, see *Table 4-2: Follow up Attendance Definitions* on page 33 above.

Table 4-3: GPRA Follow-up Due Summary Screen Search Filters

Field	Description
Agency Type	In the Agency Type search field, the option " Intake " represents the agency where the GPRA Intake Interview was conducted. The option, " Follow-up " represents any agency where the GPRA follow-up interview can be conducted.
Grant	This required field will be prepopulated with the SOR grant.
Agency	For users with access to only one agency, this field will default to that agency's name. If the user has View GPRA Follow Up Compliance and All Agency Access roles, then this field will display all the agencies. If the user has an agency oversight role to specific agencies, then this field will display those specific agencies plus the staff member home agency.
Facility	For users with access to only one facility, this field will default to that facility's name. If the user has View GPRA Follow Up Compliance and All Agency Access roles, then this field will display all the facility names. If the user has an agency oversight role to specific agencies, then this field will display those specific facilities plus the staff member home agency's facilities.

GPRA Follow-up Interview

Where: [Client List](#) > [Activity List](#) > [GPRA](#) > [GPRA Follow-up](#)

GPRA Follow-up Interviews should be added 5 to 8 months after a client's GPRA Intake Interview Date. Follow-up GPRA Interviews include additional questions to record the follow-up status. To add a follow-up record, follow the steps below.

Note: If a follow-up interview has been conducted, **sections B through G** and **I** must be completed. If the follow-up interview has **not** been conducted, **section I** must be completed.

- To access the GPRA interview, select a client from the **Client List**, point to the pencil icon in the Actions column, and then click **Activity List**.

Add GPRA Intake | **Add GPRA Followup** | Add GPRA Discharge

Action	Interview Type	Client type	Interview Date	Record Status
	Intake	Treatment Client	2/4/2015	Completed

Figure 4-16: GPRA list, Add GPRA Follow-up link

4. The system will display a confirmation screen stating, “You are about to enter a 6-month follow-up record for this client. Would you like to continue?” Select **Yes** to start the follow-up interview.

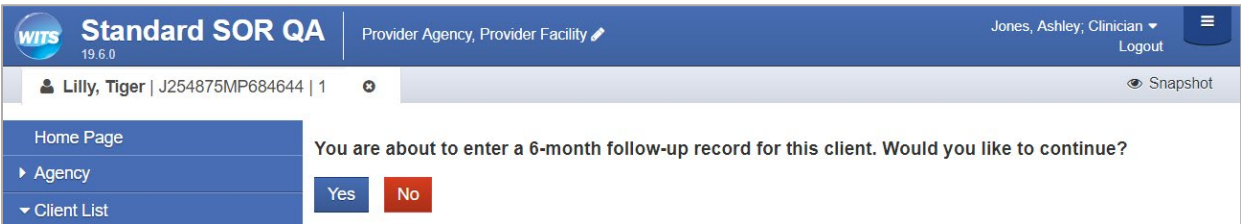

Figure 4-17: Follow-up interview confirmation screen

Note: The system will display a warning message if the Follow-up Interview Date is not within 5 to 8 months after the GPRA Intake Interview Date. This message will also be displayed on the GPRA list screen.

5. When the interview opens, complete the required fields and click the **right-arrow** button to progress to the next screen. If the interview was not conducted (answered “No” to the question “Did you conduct an interview?”), clicking the right-arrow button will display Section I. Follow-up Status.

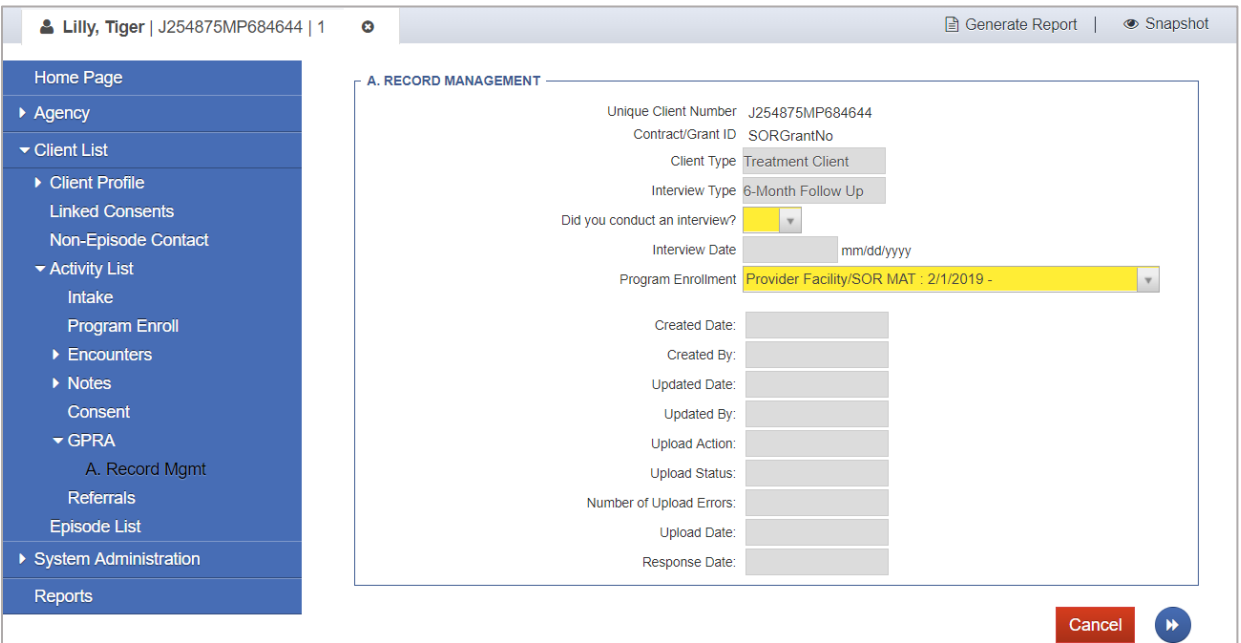

Figure 4-18: GPRA Follow-up, Section A. Record Management

6. In **Section A. Record Management - Behavioral Health Diagnoses**, if the client had medications selected on their encounter(s) within the grant episode, and the user answers **"Yes"** to questions 1a or 2a, then medication information will be prepopulated on screen. Users can modify this prepopulated information as needed.

Note: Encounters may have been entered in other agencies than yours.

The Received field will be set to "Yes" for each medication listed on the encounter(s), and "No" to all other medications. For each drug received, the number of days will be set based on the encounter(s) of the client's grant episode, and when the encounter service start date or end date were 30 days or less from the GPRA interview date. If more than one drug was selected on an encounter, then the same number of days for each drug on the GPRA discharge and Follow ups will be set. The number of days is based on encounter service start date/end date. If the encounter has no end date, it will be counted as one day. If multiple encounters are entered on the same day, then it counts 1 day per medication.

A. RECORD MANAGEMENT - BEHAVIORAL HEALTH DIAGNOSES

Please select the behavioral health diagnosis that best describes the client's condition (ICD-10-CM)

1. In the past 30 days, was the client diagnosed with an opioid use disorder? **Yes**

a. In the past 30 days, which FDA-approved medication did the client receive for the treatment of this opioid use disorder? (Select all that apply)

	Received	# of Days
Methadone	Yes	1
Buprenorphine	Yes	1
Naltrexone	No	
Extended-release Naltrexone	Yes	1

2. In the past 30 days, was the client diagnosed with an alcohol use disorder? **Yes**

a. In the past 30 days, which FDA-approved medication did the client receive for the treatment of this alcohol use disorder? (Select all that apply)

	Received	# of Days
Naltrexone	No	
Extended-release Naltrexone	Yes	1
Disulfiram	No	
Acamprosate	No	

Figure 4-19: GPRA Follow-up Interview, Section A, questions 1a and 2a, prepopulated values

- Note:** For question I.1., make sure to select the correct follow-up status for the client from the drop-down list, especially when selecting if the interview was completed **within** specified window, or **outside** specified window.

I. FOLLOW-UP STATUS

1. What is the follow-up status of the client?
If "Unable to locate, other", (Specify)

2. Is the client still receiving services from your program?

Deceased at time of due date
Completed interview within specified window
Completed interview outside specified window
Located, but refused, unspecified
Located, but unable to gain institutional access
Located, but otherwise unable to gain access
Located, but withdrawn from project
Unable to locate, moved
Unable to locate, other

7. Once all questions have been answered, a read-only summary screen is displayed. Scroll to the bottom of the summary and then click **Finish**.

G. SOCIAL CONNECTEDNESS

1. In the past 30 days, did you attend any voluntary self-help groups for recovery that were not affiliated with a religious or faith-based organization? *[In other words, did you participate in a non-professional, peer-operated organization that is devoted to helping individuals who have addiction related problems such as: Alcoholics Anonymous, Narcotics Anonymous, Oxford House, Secular Organization for Sobriety, or Women for Sobriety, etc.]*

Yes Times RF/DK

2. In the past 30 days, did you attend any religious/faith affiliated recovery self-help groups?

No Not Applicable

3. In the past 30 days, did you attend meetings of organizations that support recovery other than the organizations described above?

No Not Applicable

4. In the past 30 days, did you have interaction with family and/or friends that are supportive of your recovery?

Yes

5. To whom do you turn when you are having trouble?

Family member

Other (Specify):

6. How satisfied are you with your personal relationships?

Neither Satisfied nor Dissatisfied

I. FOLLOW-UP STATUS

1. What is the follow-up status of the client? Completed interview within specified window
If "Unable to locate, other", (Specify)

2. Is the client still receiving services from your program? Yes

Cancel Finish

8. If the GPRA Follow up interview was conducted within the 5 to 8 months window, and if no GPRA Discharge exists for this client's grant episode, then the system will display a confirmation screen asking if you would like to create a GPRA Discharge interview with the same information as the GPRA Follow up interview:

Do you want to generate a completed discharge GPRA interview based on this follow-up GPRA interview?

Select **Yes** and the GPRA Discharge will automatically be created. It is recommended that you review the newly created GPRA Discharge interview and make any updates as necessary. For example, **section J – Discharge Status** may need questions 3. and 4. updated from “No” to “Yes”, if it applies.

J. DISCHARGE STATUS

1. On what date was the client discharged?  mm/dd/yyyy

2. What is the client's discharge status?

If the client was terminated, what was the reason for termination?

Other (Specify)

3. Did the program test this client for HIV?

4. Did the program refer this client for testing?

Figure 4-20: Discharge Status

GPRA Discharge Due Screen

Where: *Agency > GPRA Discharge Due*

The **GPRA Discharge Due** screen displays at the Agency level, clients with a GPRA Intake interview date 30 days ago and the client has no encounter, or their most recent encounter is 30 days ago. Users can select from the available search fields and click **Go** to view the search results. In the **Actions** column, clicking the **“View Client”** link will redirect to the client’s GPRA list screen if the staff member is currently in the same context agency as the client.

Table 4-5: GPRA Discharge Due Screen Search Filters

Field	Description
Agency	For users with access to only one agency, this field will default to that agency’s name. If the user has All Agency Access roles, then this field will display all the agencies.
Grant	This field will be prepopulated with the SOR grant.

- Upload Date: [Text input]
- Response Date: [Text input]

At the bottom right, there is a "Cancel" button and a blue circular button with a right-pointing arrow.

Figure 4-25: GPRA Discharge Interview; Section A. Record Management

6. In **Section A. Record Management - Behavioral Health Diagnoses**, if the client had medications selected on their encounter(s), and the user answers “Yes” to questions 1a or 2a, medication information will be prepopulated on screen. Users can modify this prepopulated information as needed.

Note: Encounters may have been entered in other agencies than yours.

The Received field will be set to “Yes” for each medication listed on the encounter(s), and “No” to all other medications. For each drug received, the number of days will be set based on the encounter(s) of the client’s grant episode, and when the encounter service start date or end date were 30 days or less from the GPRA interview date. If more than one drug was selected on an encounter, then the same number of days for each drug is set on the GPRA discharge and Follow ups. The number of days is based on encounter service start date/end date. If the encounter has no end date, it will be counted as one day. If multiple encounters are entered on the same day, 1 day per medication is counted.

A. RECORD MANAGEMENT - BEHAVIORAL HEALTH DIAGNOSES

Part 5: Consent and Referrals

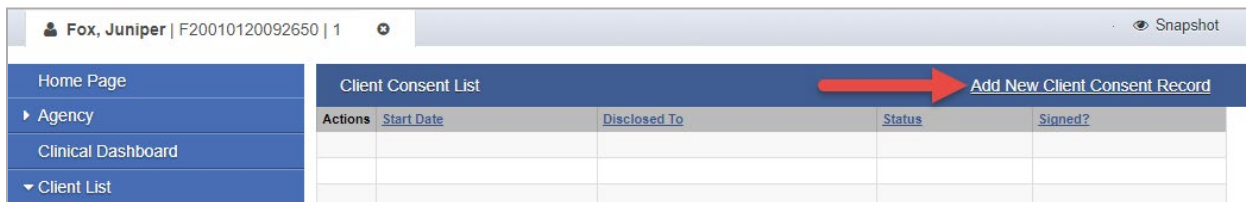

Create Client Consent Record

Where: *Client List* > *Activity List* > *Consent*

The consent is a formal process adhering to 42 CFR Part 2, which governs the sharing of client information between agencies and facilities using WITS. A consent may also be used to record the sharing of information (on paper) with agencies who do not use WITS, making the consent part of the electronic health record.

1. On the left menu, click **Client List** and search for a client.
2. Locate the client, hover over the Actions column, and then click **Activity List**.
3. On the left menu, click **Consent**.
4. Click the **Add New Client Consent Record** link.

5. Select **No**.

Is this related to a waitlist record?

←

6. On the Client Disclosure Agreement screen, complete the following fields.

Table 5-1: Client Disclosure Agreement fields

Field	Description
Entities with Disclosure Agreements	Select from the drop-down list. This field will display a list of agencies that have previously created a Disclosure template. This will prepopulate fields in the "Client Information To Be Consented" section, which can then be modified if needed.
System Agency	Select "Yes" if the agency uses WITS.
Disclosed to Agency	Select the agency that will be receiving the client's information.
Facility	Select the facility within the selected Agency that will be receiving the client's information. Select All Facilities, or an individual facility.
Purpose for Disclosure	Type the reason for creating the Consent record.
Earliest date of services to be consented	Select the date.
Has the client signed the paper agreement form	Select "No" to save the screen and have the client sign the paper form (see below), after client has signed, select "Yes".

Field	Description
Date client signed consent	This field will become editable when “Yes” is selected in the previous field.

- Click the link, **Create Referral Using this Disclosure Agreement**, and continue to the next section.

CONFIDENTIALITY OF ALCOHOL AND DRUG ABUSE CLIENT RECORDS

The confidentiality of client records maintained by an ATR service provider ("program") is protected by Federal law and regulations. Generally, the program may not say to a person outside the program that a client is enrolled in ATR, or disclose any information identifying a client as a person with a problem with alcohol or other drugs unless:

(1) The client consents in writing; OR
 (2) The disclosure is allowed by a court order; OR
 (3) The disclosure is made to medical personnel in a medical emergency or to a qualified personnel for research, audit, or program evaluation; OR
 (4) The client commits or threatens to commit a crime either at the program or against any person who works for the program.

Violation of the Federal law and regulations by a program is a crime. Suspected violations may be reported to the United States Attorney in the district where the violation occurs.

Federal law and regulations do not protect any information about suspected child abuse or neglect from being reported under state law to appropriate state or local authorities.

See 42 U.S.C. Sec. 2906d-2 for federal law and 42 CFR Part 2 for federal regulations governing Confidentiality of Alcohol and Drug Abuse Patient Records.

CONSENT FOR TWO-WAY RELEASE OF CONFIDENTIAL INFORMATION

I, Donald Abene, authorize the ATR4 Coordinator Agency to communicate with and disclose to West Care Coordination Inc. the following information:

The purpose of the disclosure authorized herein is:

(a) to verify my eligibility to receive and to pay West Care Coordination Inc. for the following ATR services: _____; OR
 (b) needed for other facility _____

I also authorize West Care Coordination Inc. to communicate with and disclose to the ATR4 Coordinator Agency all information related to the services I received from West Care Coordination Inc. for purposes of payment and care coordination.

This authorization expires six months from today's date.

I understand that my records are protected under federal regulations governing the Confidentiality of Alcohol and Drug Abuse Patient Records, 42 CFR Part 2, and cannot be disclosed without my written consent unless otherwise provided for in the regulations. I also understand that I may revoke this consent at any time except to the extent that action has been taken in reliance on it. I understand that authorizing disclosure of the information identified above is voluntary. However, I understand that lack of consent to share information may prevent ATR Coordinator and the ATR Service Provider from providing _____ and/or authorizing payment for services, and I may be denied referral for MA _____ consent form.

Referrals

Create a Client Referral

Where: [Client List](#) > [Activity List](#) > [Referrals](#)

Continuing from previous section...

Once the Client Consent is complete, create the Client Referral Record. A referral is used when the receiving agency (another WITS agency) will be providing services for the client. Referrals may also be done from one facility to another facility within the same agency.

- After clicking the **Create Referral Using this Disclosure Agreement** link, the Referral screen will open.

Figure 5-4: Referral screen

- On the Client Referral screen, complete the required fields in the **Referred By** section, including:

Table 5-3: Referred By fields

Field	Description
Program	Select the Program It should be a referral from a program with the SOR grant to another program with the SOR grant
Reason	In the drop-down field, select the reason why this client is being referred.
Is Consent Verification Required?	Select Yes.
Is Consent Verified?	Select Yes.
Continue Episode of Care?	Select No.
Referral Status	State of the referral (this should be "Referral Created/Pending").

Field	Description
Created Date	Date client is referred.

3. Next, in the **Referred To** section, complete all the required fields, including:

Table 5-4: Referred To fields

Field	Description
Signed Consents	Select the consent from list of available consents.
Agency	This field will auto populate based on the "Consent" selected.
Facility	The facility the client is being referred to.
Program	The program the client is being referred to. It should be an SOR program.

4. When complete, click **Save**.

Viewing Referrals

Referrals In

Where: [Agency](#) > [Agency List](#) > [Referrals](#) > [Referrals In](#)

Whenever clients are referred in to your Agency from another agency, a message will appear on the Home Page as shown in Figure 5-5: Home Page with "referred in" notification. Clients who have been referred in have signed a consent form agreeing to share certain information with your agency. To review these referrals, follow the steps below.

Role Needed:

- Referrals (Full Access)

Note: Only users with the Referrals (Full Access) role will see Referrals left menu link.

The screenshot shows the STANDARD WITS Home Page. The top navigation bar includes the WITS logo, version 18.22.0, and the user's name 'Jones, Ashley; Administrator' with a 'Logout' link. A left sidebar menu contains links for Home Page, Agency, Clinical Dashboard, Client List, System Administration, and Reports. A notification banner at the top states: 'There are currently 2 people that have been referred in.' Below the notification, the 'Home' section features an 'Announcements' table with columns for Actions, Summary, Posted Date, Start Date, and Priority. The table contains one entry: 'This is an announcement which should be scoped to Mental Health agencies.' with a posted date of 1/24/2017 1:58 PM.

Figure 5-5: Home Page with "referred in" notification

- On the left menu, click **Agency**, click **Referrals**, and then click **Referrals In**.
- On the **Referrals In Search** screen, in the **Referral Status Codes** field, select "**Referral Created/Pending**" and move this option to the **Search Criteria** box by clicking the mover button as shown in **Error! Reference source not found.**
- After selecting the search criteria, click **Go** to view the search results list.

The screenshot shows the 'Referrals In Search' screen. The top navigation bar includes the WITS logo, version 18.41.0, and the user's name 'Jones, Ashley' with a 'Logout' link. A left sidebar menu contains links for Home Page, State Waitlist, Agency, Agency List, Agency Profile, Aliases, Contacts, Governance, Relationships, Announcements, Referrals, Referrals In, Referrals Out, Removed Consents, and Deleted Clients. The main content area has a 'Referrals In Search' section with two dropdown menus: 'Referral Status Codes' (containing Placed/Accepted, Referral Terminated, Refused Treatment, Rejected by Program) and 'Search Criteria' (containing Referral Created/Pending). Below these are input fields for Unique Client Number, Created Date, Referred Date, First Name, and Last Name. There are 'Clear' and 'Go' buttons. At the bottom, there is a table titled 'Referrals for User Documentation Facility' with columns: Actions, Unique Client #, Client Name, DOB, Created Date, Referring Agency/Facility, Referred To Modality, Referral Status, Ref to Facility, and Referral Comments. The table is currently empty.

Figure 5-6: Referrals In Search screen

- Notice that any referred clients will appear in the list portion of the screen. To view a client's referral information, hover over the Actions column, and then click **Review**.

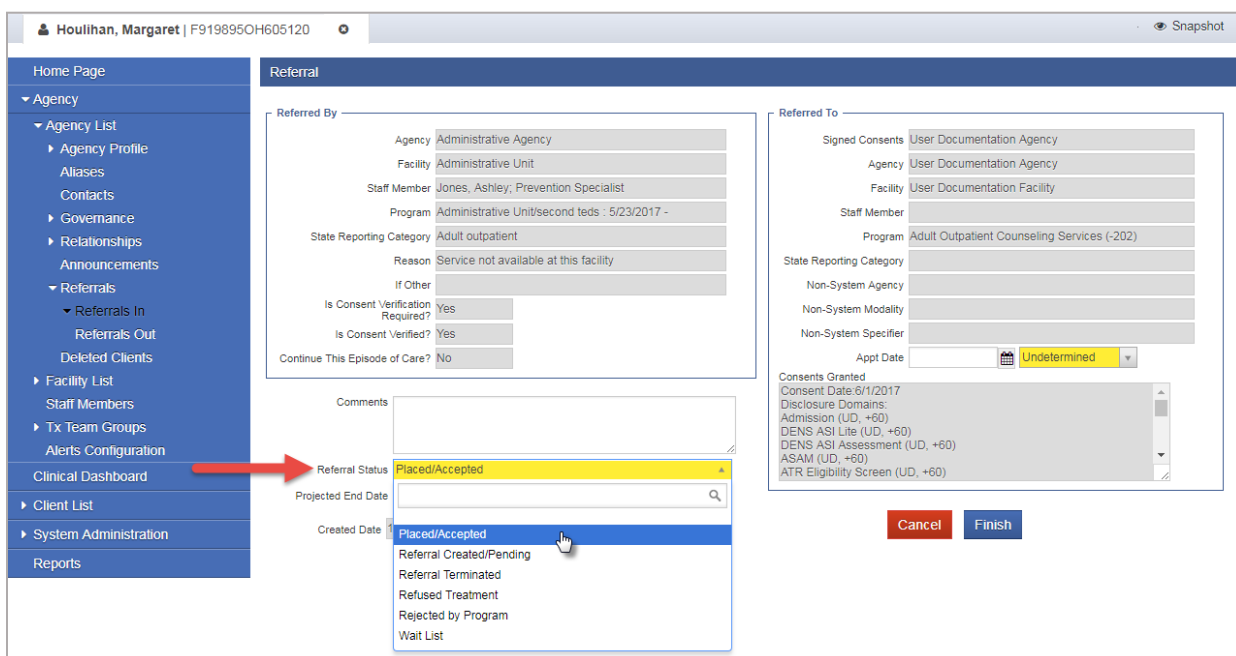

Referrals for User Documentation Facility (Export)								
Actions	Unique Client #	Client Name	DOB	Created Date	Referring Agency/Facility	Referred To Modality	Referral Status	Ref to Facility
	F919895OH605120	Houlihan, Margaret	9/21/1958	6/19/2017	Administrative Agency/Administrative Unit	Ambulatory- Non-Intensive Outpatient	Referral Created/Pending	User Documentation Facility
	10	Barb, Jon	1/14/1968	6/19/2017	Administrative Agency/Administrative Unit	Ambulatory- Non-Intensive Outpatient	Referral Created/Pending	User Documentation Facility

Figure 5-7: Referrals Search Results, Review link

- To accept the client referral, click on the **Referral Status** field and select "**Placed/Accepted**" from the drop-down list. The client must be accepted into your agency before viewing the client's record, or working on the case.

The screenshot shows the 'Referral' screen for client Margaret Houlihan (F919895OH605120). The left sidebar contains navigation links: Home Page, Agency, Agency List, Agency Profile, Aliases, Contacts, Governance, Relationships, Announcements, Referrals, Referrals In, Referrals Out, Deleted Clients, Facility List, Staff Members, Tx Team Groups, Alerts Configuration, Clinical Dashboard, Client List, System Administration, and Reports. The main area is divided into 'Referred By' and 'Referred To' sections. The 'Referred By' section includes fields for Agency (Administrative Agency), Facility (Administrative Unit), Staff Member (Jones, Ashley; Prevention Specialist), Program (Administrative Unit/second teds : 5/23/2017 -), State Reporting Category (Adult outpatient), Reason (Service not available at this facility), and checkboxes for Is Consent Verification Required? (Yes) and Is Consent Verified? (Yes). The 'Referred To' section includes fields for Signed Consents (User Documentation Agency), Agency (User Documentation Agency), Facility (User Documentation Facility), Staff Member, Program (Adult Outpatient Counseling Services (-202)), State Reporting Category, Non-System Agency, Non-System Modality, Non-System Specifier, and Appt Date (Undetermined). A 'Consents Granted' section lists various consents with dates. At the bottom, there are 'Cancel' and 'Finish' buttons. A red arrow points to the 'Referral Status' field, which is currently set to 'Placed/Accepted'. A dropdown menu is open, showing options: Placed/Accepted, Referral Created/Pending, Referral Terminated, Refused Treatment, Rejected by Program, and Wait List.

Figure 5-8: Referral screen, Referral Status field

- (Optional) Next, fill in the **Appointment Date (Appt Date)** and use the drop down box to provide any additional information about the appointment.
- Click **Finish** to save the record and accept the referral. Note that this action takes you to the Client Profile screen for the client you just accepted.

(Optional) Additional **Referral Status** reasons to select:

- Referred/Terminated:** When the referral has been deleted by the referring agency.
- Refused Treatment:** Select if the client does not want to be treated.
- Rejected by Program:** If the client is not eligible or is not acting in compliance.
- Wait List:** If the client is waiting for a slot to open in the program.

Note: Once the referral is Placed/Accepted, the client record is created within the Agency, and an Intake and Client Program Enrollment is created within the referred to Facility.

Referrals Out

Where: [Agency](#) > [Agency List](#) > [Referrals](#) > [Referrals Out](#)

The Referrals Out screen is used to check the status of referrals made from your agency to other agencies.

1. On the left menu, click **Agency**, click **Referrals**, and then click **Referrals Out**.
2. On the **Referrals Out Search** screen, in the **Referral Status Codes** field, select the desired codes and move them to the **Search Criteria** box by clicking the mover button (>).
3. After selecting the search criteria, click **Go** to view the search results list.

Figure 6-1: Encounter Profile screen with EBP and MAT fields

- Complete the fields on the Encounter Profile screen. See table below for information on each field.

Table 6-1: Encounter Profile fields

Field	Description
Note Type	Select from the drop-down field.
ENC ID	Read-only field. When the encounter is saved, this field will display its unique ID number.
Created Date	Read-only field. This field will display the date and time when the encounter is saved.
Program Name	This field will pre-populate with the client's current program enrollment name and program enrollment start date. <div> <div>Program Name</div> <div>Provider/Adolescent Intensive Outpatient : 8/31/2018 -</div> </div>
Service	Select a service from the drop-down list.
Billable	This field may be pre-populated with Yes or No.
Service Location	Select an option from the drop-down list. This field may be pre-populated if this information was added to the facility profile.
Start Date	Enter the date when this service was rendered. Note: The start date for this encounter must occur within the same program enrollment period. Encounter date cannot be before the intake date.

Field	Description
Start Time	Enter the time when this service was rendered. This field may be optional or required depending on the selected service. Some services may be set up to require this information.
End Date	Enter the date when this service ended. This field may be optional or required depending on the selected service. Some services may be set up to require this information. Note: The end date for this encounter must occur within the same program enrollment period.
End Time	Enter the time when this encounter ended. This field may be optional or required depending on the selected service. Some services may be set up to require this information.
Duration	<p>In the Duration field, type an integer to record time spent for this encounter. In the Duration drop-down field, select the unit of time.</p> <p>Note: The duration field will only accept whole numbers. Decimals (e.g., 0.5) are not accepted.</p>  <p>These fields may be optional or required depending on the selected service. Some services may be set up to require this information.</p>
# of Service Units/Sessions	Type an integer representing the number of units or sessions spent for this service. Your administrator may have established policy guidelines regarding how services are recorded.
Emergency	(Optional) Select from the drop-down list.
Pregnant	(Optional) Select from the drop-down list.
Evidence-Based Practices	
Which Evidence-Based Practices were used?	Select options from the box and use the mover buttons to add or remove the Evidence-Based Practices options.

7. Click **Save**, and then click the **right-arrow**.

Encounter Notes section of the Encounter allows the staff to enter notes related to the time spent with the client. If the client has an Active Treatment Plan, the staff can add Goals, Objectives, and Interventions to the encounter.

The screenshot displays the 'Encounter Notes' interface. At the top, there is a 'Goal Progress' dropdown menu. Below this are three sections for adding data:

- Add Goals:** A table with columns 'Actions', 'Goal #', 'Goal', and 'Description'. An 'Add Goals' button is in the top right.
- Add Objectives:** A table with columns 'Actions', 'Obj #', 'Objective', and 'Description'. An 'Add Objectives' button is in the top right.
- Add Interventions:** A table with columns 'Actions', 'Intervention', and 'Status'. An 'Add Interventions' button is in the top right.

Below these sections are two text input areas:

- Signed Notes:** A large text area for signed notes.
- Unsigned Notes:** A large text area for unsigned notes.

Between the signed and unsigned notes sections, there is a row of controls: 'Allow Disclosure' (set to 'No'), 'Cancel' (red button), 'Save' (green button), 'Finish' (blue button), and navigation arrows (left and right blue buttons). At the bottom right, there are 'Add Note' and 'Sign Note' buttons.

Figure 6-4: Encounter Note, Add Goals, Objectives, and Interventions

Part 7: Overdose Reversal Kit

Where: *Agency > Overdose Reversal Kit*

Required Role(s):

- Overdose Reversal Kits Management (Full Access)
- Overdose Reversal Kits Management (Read Only)

As part of the SOR reporting requirements, grantees must provide on a quarterly basis the number of naloxone kits purchased and distributed with the SOR funds. This new module has been created to track three (3) types of events:

Event Types:

- Naloxone Purchase
- Naloxone Distribution
- Naloxone Administration

Note: Please refer to the WITS Basics User guide, **Part 1: System Icons** for information on the screen conventions for the Overdose Reversal screens.

Add New Overdose Reversal Kit Event

1. On the left menu, click **Agency**, and then click **Overdose Reversal Kits**.
2. Click **Create New Overdose Reversal Kit Event**.

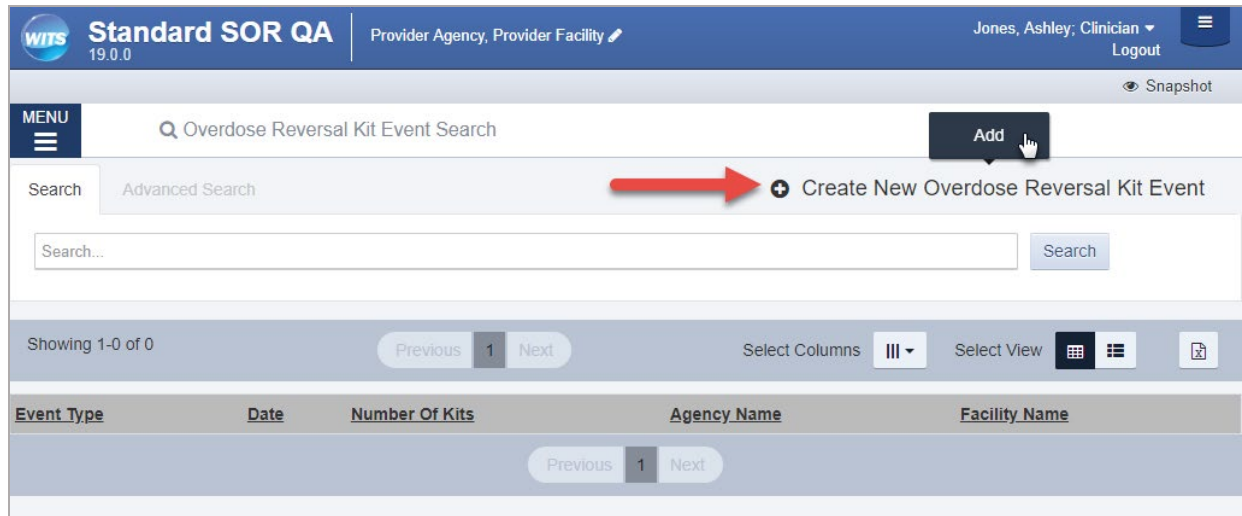

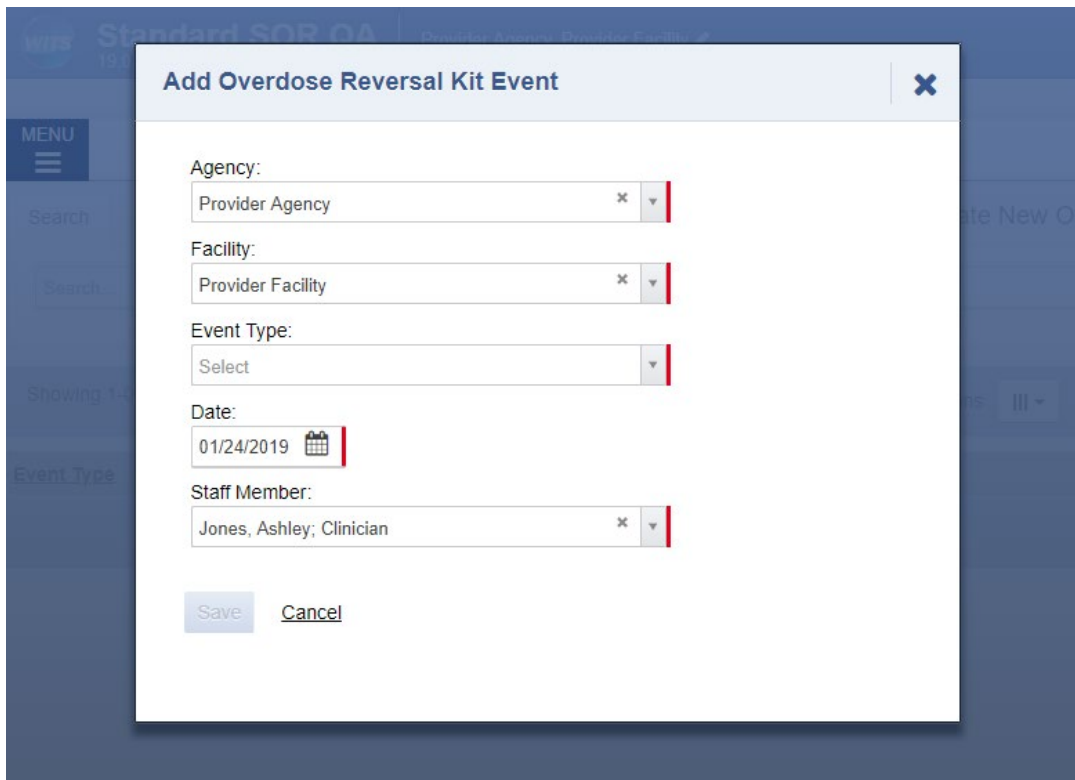

Figure 7-1: Create New Overdose Reversal Kit Event

3. On the **Add Overdose Reversal Kit Event** dialog box, complete the fields as shown in the table below.

Table 7-1: Add Overdose Reversal Kit Event dialog box fields

Field	Description
Agency	Defaults to the current agency name. Note: The selected agency cannot be updated once this dialog box is saved.
Facility	Defaults to the current facility name. Note: The selected facility cannot be updated once this dialog box is saved.
Event Type	Select an event type from the drop-down list. Note: The selected event type cannot be updated once this dialog box is saved. Event Type: <div> <div>Select</div> <div> <div></div> <div>Naloxone Administration</div> <div>Naloxone Distribution</div> <div>Naloxone Purchase</div> </div> </div>
Date	Defaults to the current date.
Staff Member	Defaults to the current staff member logged in.

The image shows a software interface with a modal dialog box titled "Add Overdose Reversal Kit Event". The dialog box is white with a blue header bar containing the title and a close button (X). The background is a dark blue sidebar with a "MENU" button and a search bar. The dialog box contains the following fields:

- Agency:** A text input field with "Provider Agency" and a dropdown arrow.
- Facility:** A text input field with "Provider Facility" and a dropdown arrow.
- Event Type:** A dropdown menu with "Select" as the current selection.
- Date:** A date input field showing "01/24/2019" with a calendar icon.
- Staff Member:** A text input field with "Jones, Ashley; Clinician" and a dropdown arrow.

At the bottom of the dialog box are two buttons: "Save" and "Cancel".

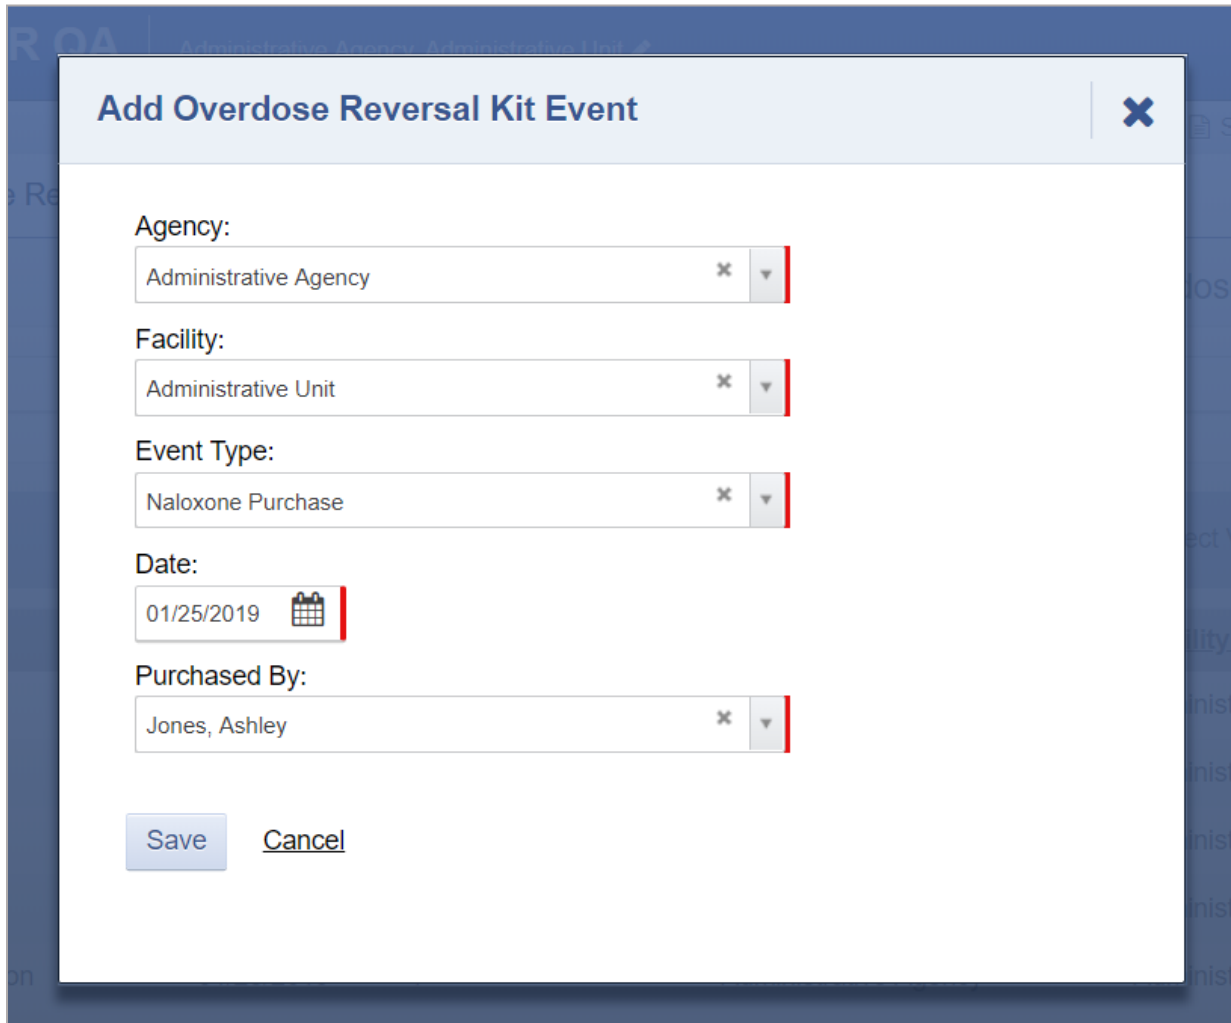

Figure 7-2: Overdose Reversal Kit Event dialog box

4. Click **Save**. This will open the Event Workspace screen.

Naloxone Purchase

To record when Naloxone was purchased, follow the steps below.

1. On the left menu, click **Agency**, and then click **Overdose Reversal Kits**.
2. Click **Create New Overdose Reversal Kit Event**.
3. On the **Add Overdose Reversal Kit Event** dialog box, in the **Event Type** field, select **Naloxone Purchase** from the drop-down list.

Linked Events

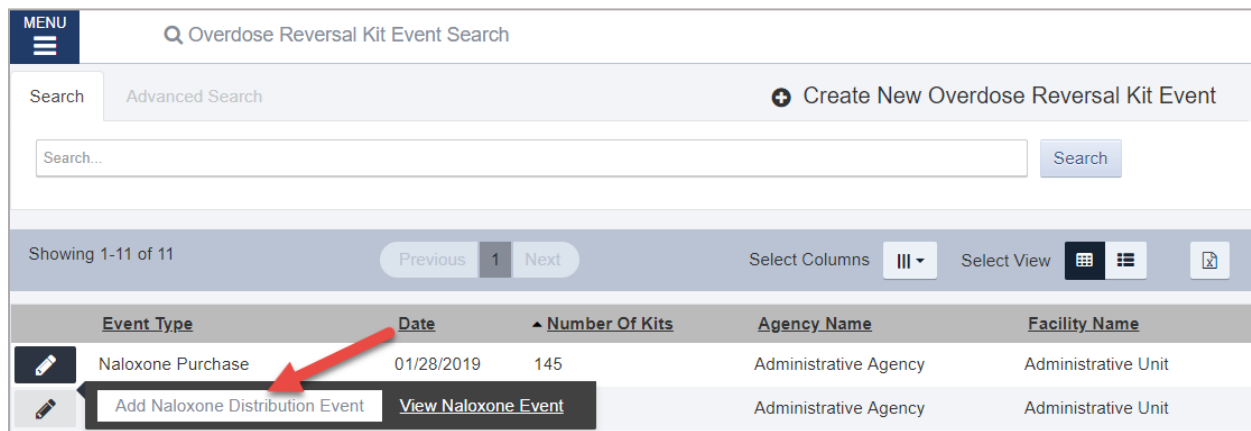

If the same agency has purchased kits and then distributed those kits, those records can be linked together. In addition, an Administration Event can be linked to a Distribution Event.

Note: Linked events allow information to prepopulate fields from one event to the next, and it opens the possibility for reporting across events. However, at this point there are no rules preventing the user from distributing more kits than were purchased, or administering more than was distributed.

Link a Distribution Event with a Purchase Event

To associate a Distribution Event with a Purchase Event, follow the steps below.

1. On the left menu, click **Agency**, and then click **Overdose Reversal Kits**.
2. On the **Overdose Reversal Kit Event Search** screen, locate the desired Naloxone Purchase event.
3. Point the pencil icon, and then click **Add Naloxone Distribution Event**.
