

# MISSISSIPPI'S COMMUNITY MENTAL HEALTH CENTERS

---

Regional Community Mental Health Centers (CMHCs) operate under the supervision of regional commissions appointed by county boards of supervisors from their respective service areas. The 14 CMHCs make available a range of community-based mental health, drug and alcohol addiction, and intellectual/developmental disabilities services. CMHC governing authorities are considered regional and not state-level entities. DMH is responsible for certifying, monitoring, and assisting CMHCs. The services listed below are available at all CMHCs. Additional services such as Crisis Stabilization Beds, Assertive Community Treatment, Intensive Community Outreach Recovery Teams, Supported Employment, and more may be available.

---
