GENERAL

INTRODUCTION

INTENDED USE

This is a companion guide to the HIPAA American National Standards Institute (ANSI) Accredited Standards Committee (ASC) X12N Technical Report Type 3 (TR3) implementation Guide, *005010X222: Health Care Claim: Professional (837)*. This companion guide supplements, but does not contradict any requirements in the ASC X12 TR3 document. The ANSI ASC X12 Implementation Guides may be accessed at <http://www.wpc-edi.com/>.

PURPOSE

This guide is intended to assist agencies in implementing transaction standards which meet the Mississippi Department of Mental Health (DMH) processing methodology. It provides specific requirements for submitting professional claims (837P) to Mississippi DMH, and it contains information about enrollment, testing, and support.

GETTING STARTED

ENROLLMENT

Provider agencies must notify Mississippi DMH that they wish to submit 837P HIPAA transactions for fee for service (FFS) claims. Agencies must have login credentials for MS WITS (production and testing environments).

SUPPORT

Please have the following information available when contacting Mississippi DMH:

- Provider agency name
- Point of contact, including name, title, telephone number, and email address

Upload Instructions

837P transactions are uploaded to MS WITS. Navigate to the H837P Management screen under Agency/Billing and select “Add H837” from the list header.

The screenshot shows the H837 Management interface. On the left is a navigation menu with categories: Agency, Facility List, and Billing. The Billing section is expanded, showing options like Claim Item List, Claim Batch List, Encounter List, EOB Transaction List, Payment List, Billing Transaction List, Client Balance, Payor Plan List, Authorization List, H837 Management, H835 Management, and H999 Management. The main content area is titled 'H837 Management' and contains a form with fields for File Name, Upload Date, and Status, along with 'Clear' and 'Go' buttons. Below the form is an 'H837 File List' table with columns for Actions, File Name, Uploaded Date, and Status. An 'Add H837' link is visible in the top right of the table area.

Uploaded files are queued for processing:

This screenshot shows the H837 Management interface after a successful upload. A notification banner at the top states: 'File 1932166981_AL05521C_2586_837.txt was uploaded successfully.' The form fields are now populated: File Name is '1932166981_AL05521C_2586_837.txt', Upload Date is '7/24/2019', and Status is 'Queued'. The 'H837 File List' table now contains one row with a pencil icon in the Actions column, File Name '1932166981_AL05521C_2586_837.txt', Uploaded Date '7/24/2019', and Status 'Queued'.

Once processed, the status changes to “Processed” or “Failed.” Processed 837P transactions must be adjudicated by Mississippi DMH.

Note that the H837 File List may be filtered based on file name, upload date, and status.

TESTING AND CERTIFICATION

PREREQUISITES

Provider agencies must have the following items in place prior to submitting 837P transactions:

- An established contractual relationship with Mississippi DMH to provide treatment services.
- A Business Associate Agreement (BAA) with Mississippi DMH.
- Login credentials to the MS WITS testing environment.
- The ability to create 837P transactions in accordance with this document.
- Notification to Mississippi DMH that they will submit 837P transactions in lieu of entering encounters in MS WITS. The notification must include:
 - Point of contact (name, title, telephone number, and email address).
 - Agreement to complete a testing cycle consisting of three test 837P transactions over a four-week period.
 - Expected submission date of the first test 837P transaction.

TEST CYCLES

The following procedure is followed for all cycles:

- The provider uploads an 837P to the testing environment. If there are submission errors, the 837P should be corrected and resubmitted.
- The provider agency downloads the 999 transaction.
- Mississippi DMH adjudicates claim(s).
- The provider agency downloads the 835 transaction.

Cycle 1

The goal of this cycle is to successfully submit a simple 837P that meets syntax and formatting requirements. The 837P should contain a single claim for a single client.

In this cycle, provider agencies should become familiar with uploading the 837P, viewing and correcting submission errors, and downloading the 999 and 835.

Cycle 2

The goal of this cycle is to successfully submit a more complex 837P. The 837P should include at least 5 clients, 25 claims, and 2 rendering providers.

Cycle 3

The goal of this cycle is to successfully submit an 837P with adjustments and duplicate claims. The 837P should include:

- An adjustment to a claim that was adjudicated in a previous test cycle
- A duplicate claim that was adjudicated in a previous test cycle.

CERTIFICATION
