## INTRODUCTION

This Provider Contract and Billing Manual is intended to function as a companion to the Mississippi Department of Mental Health Service Provider's Manual. It serves to define billable services, eligible staff (where appropriate), reporting codes, units, unit rates, restrictions (if any), and other conditions of billing the service.

While it is recognized that involvement of family members in the rehabilitation of patients with mental health and substance use disorders may be necessary and appropriate, provision of services where the family is involved must be clearly directed to meeting the identified patient's needs. Services provided to non-Medicaid eligible family members, independent of meeting the identified patient's needs, are not covered by Medicaid.

All billing inquiries should reference the funding source. Questions concerning Medicaid billing should reference the Medicaid Guidelines issued by the Division of Medicaid, Office of the Governor.

Questions relative to this manual should be directed to the Mississippi Department of Mental Health.

---

## ASSESSMENTS

An assessment is a structured interview process that functions to evaluate a patient's present level of functioning and/or presenting needs. The assessment is used to establish additional or modify existing diagnoses, establish new or additional rehabilitation service goals, assess progress toward goals, and/or to determine the need for continued care, transfer, or discharge.

---

## BRIEF BEHAVIORAL HEALTH ASSESSMENT (SCREENING)

**Definition:**

Brief emotional behavioral assessment (e.g. depression inventory), with scoring and documentation, per standardized instrument. This is not part of the same as providing Screening, Brief Intervention, and Referral to Treatment (SBIRT) services, which is a more comprehensive service.

<b><u>Reporting Code:</u></b>	<b>Procedure</b>	<b>Description</b>	<b>Billing Unit</b>	<b>Billing Rate</b>
	96127	Brief Behavioral Health Assessment (Screening)	1	\$4.07

**Reporting Unit:** 1 assessment

**Maximum Billable Unit(s):** Limited to 2 service units per day; 12 service units per year

Services are to be delivered in a setting that is acceptable for both the patient and staff member, that affords an adequate therapeutic environment, and that protects the patient's rights to privacy and confidentiality. Location should be in compliance with all applicable federal, state, and local codes.

---

## INTAKE / BIOPSYCHOSOCIAL ASSESSMENT

**Definition:**

For all individuals receiving mental health services and/or substance use disorders services, the biopsychosocial assessments are the face-to-face securing of information from the individual receiving services and/or collateral contact, of the individual's family background, educational/vocational achievement, presenting problem(s), problem history, history of previous treatment, medical history, current medication(s), source of referral and other pertinent information in order to determine the nature of the individual's or family's problem(s), the factors contributing to the problem(s), and the most appropriate course of treatment for the individual and/or family.

<b><u>Reporting Code:</u></b>	<b>Procedure</b>	<b>Description</b>	<b>Billing Unit</b>	<b>Billing Rate</b>
	H0031	Intake / Biopsychosocial Assessment	1	\$93.00

**Reporting Unit:** 1 intake assessment

**Maximum Billable Unit(s):** Limited to 1 service unit per day; 4 service units per year

## RESIDENTIAL SERVICES

Substance Use Disorders Residential Treatment Services support individuals as they develop the skills and abilities necessary to improve their health and wellness, live self-directed lives, and strive to reach their full potential in a life of recovery. Services are offered in a community-based treatment setting. The residential continuum of care includes both Primary Residential Services and Transitional Residential Services for individuals with SUD.

The Mississippi Department of Mental Health (DMH), Bureau of Behavioral Health/Addictive Services (Addictive Services), will serve as the State Authority for Opioid Treatment Programs under the authority provided under state statute (Section 41-4-7 of the Mississippi Code of 1972, Annotated). Such programs shall provide withdrawal management services to people suffering from chronic addiction to opiates/opiate derivatives. The services support the individual by utilizing methadone, and/or Buprenorphine (including buprenorphine and buprenorphine-naloxone formulation), naltrexone, and other medications approved by the Federal Food & Drug Administration (FDA), while the individual participates in a spectrum of counseling and other recovery support services that are intended to assist the person with successful recovery from addiction.

## CRISIS DIVERSION/COMMUNITY TRANSITION RESIDENTIAL

**Definition:**

The Mississippi Department of Mental Health (DMH) is committed to providing a person-centered, recovery-oriented system of care for all Mississippians in need of mental health services. In effort to allow individuals to receive services in the community of his or her choice; and DMH is offering funding for Community Integration Homes.

Community Integration Homes are community homes which support up to six (6) individuals twenty-four hours per day, seven days per week, who are discharging from long term institutional care to the community.

Crisis Diversion Homes support four (4) individuals twenty-four hours per day, seven days per week, as determined by the DMH Branch of Coordinated Care, who are either in crisis or at risk of being in crisis. Many times, this crisis occurs because a person has exhausted their current living arrangements and has no place to live.

The Department of Mental Health is providing funding for a pilot project with Communicare to offer Community Safe Homes to support an individual, twenty-four hours per day, seven days per week, who are in crisis. The purpose of the Community Safe Homes is to decrease the number of admissions to behavioral health and IDD programs and provide services in the community that are immediately available to the individuals until the crisis is resolved.

<b><u>Reporting Code:</u></b>	<b>Procedure</b>	<b>Description</b>	<b>Billing Unit</b>	<b>Billing Rate</b>
	110	Crisis Diversion/Community Transition	1	\$203.17

**Reporting Unit:** 1 day

Services are to be delivered in a setting that is acceptable for both the patient and staff member, that affords an adequate therapeutic environment, and that protects the patient's rights to privacy and confidentiality. Location should be in compliance with all applicable federal, state, and local codes.

## OUTPATIENT SERVICES

**Psychosocial Rehabilitative Services (PSR)** consists of a network of services designed to support and restore community functioning and well-being of adults with a serious and persistent mental illness. The purpose of the program is to promote recovery, resiliency, and empowerment of the individual in his/her community. Program activities aim to improve reality orientation, social skills and adaptation, coping skills, effective management of time and resources, task completion, community and family integration, vocational and academic skills, and activities to incorporate the individual into independent community living; as well as to alleviate psychiatric decompensation, confusion, anxiety, disorientation, distraction, preoccupation, isolation, withdrawal and feelings of low self-worth.

**Outpatient Psychotherapeutic Services** include initial assessment, and individual, family, group, and multi-family group therapies. Outpatient Psychotherapeutic Services are defined as intentional, face-to-face interactions (conversations or non-verbal encounters, such as play therapy) between a mental health therapist, IDD therapist or A/D therapist (as appropriate to the population being served) and an individual, family or group where a therapeutic relationship is established to help resolve symptoms of a mental and/or emotional disturbance.

**Crisis Response** is an intensive therapeutic service which allows for the assessment of and intervention in a mental health crisis. Crisis Response Services are provided to children and adults who are experiencing a significant emotional/behavioral crisis in which the individual's mental health and/or behavioral health needs exceed the individual's resources (in the opinion of the mental health professional assessing the situation.) Trained Crisis Response staff provides crisis stabilization directed toward preventing hospitalization. Staff must be able to triage and make appropriate clinical decisions, including assessing the need for inpatient services or less restrictive alternatives. Crisis Response Services will deliver solution-focused and recovery-oriented behavioral health assessments and stabilization of crisis in the location where the individual is experiencing the crisis. Without Crisis Response intervention, the individual experiencing the crisis may be inappropriately and unnecessarily placed in a jail, holding facility, hospital or inpatient treatment facility. (Crisis Response Services do not include the Crisis Intervention/Crisis Support Services provided through the ID/DD Waiver.)

## DAY TREATMENT (CHILD)

**Definition:**

Day Treatment Services are the most intensive outpatient services available to children/youth with SED. The services must provide an alternative to residential treatment or acute psychiatric hospitalization or serve as a transition from these services. Day Treatment Services are a behavioral intervention and strengths-based program, provided in the context of a therapeutic milieu, which provides primarily school age children/adolescents with serious emotional disturbances the intensity of treatment necessary to enable them to live in the community. Day Treatment Services are based on behavior management principles and include, at a minimum, positive feedback, self-esteem building and social skills training. Additional components are determined by the needs of the participants at a particular site and may include skills training in the areas of impulse control, anger management, problem solving, and/or conflict resolution.

## WRAPAROUND FACILITATION

**Definition:**

Wraparound is an approach to individualized care planning encompassing the concept of wrapping services and supports around children, youth and families, utilizing both clinical treatment services and natural supports. Wraparound is built on the collective action of a committed group of family, friends, community, professionals, and cross-system supports mobilizing resources and talents from a variety of sources. This results in the creation of an Individualized Support Plan that is the best fit between the family vision and story, strengths, needs, team mission, and strategies.

Wraparound facilitation is for children/youth with serious emotional disturbances (SED) who have highly complex needs and/or have multiple agency involvement and are at risk of out-of-home placement. With ratios of 1 Wraparound Facilitator to 10 families and youth, youth can be diverted from residential placements and served in their communities and homes.
