Mission, Vision and Core Values

DMH Mission

Supporting a better tomorrow by making a difference in the lives of Mississippians with mental illness, substance abuse problems and intellectual/developmental disabilities, one person at a time.

Vision

We envision a better tomorrow where the lives of Mississippians are enriched through a public mental health system that promotes excellence in the provision of services and supports.

A better tomorrow exists when...

- All Mississippians have equal access to quality mental health care, services and supports in their communities.
- People actively participate in designing services.
- The stigma surrounding mental illness, intellectual/developmental disabilities, substance abuse and dementia has disappeared.
- Research, outcomes measures, and technology are routinely utilized to enhance prevention, care, services, and supports.

Core Values & Guiding Principles

People We believe people are the focus of the public mental health system. We respect the dignity of each person and value their participation in the design, choice and provision of services to meet their unique needs.

Community We believe that community-based service and support options should be available and easily accessible in the communities where people live. We believe that services and support options should be designed to meet the particular needs of the person.

Commitment We believe in the people we serve, our vision and mission, our workforce, and the community-at-large. We are committed to assisting people in improving their mental health, quality of life, and their acceptance and participation in the community.

Excellence We believe services and supports must be provided in an ethical manner, meet established outcome measures, and are based on clinical research and best practices. We also emphasize the continued education and development of our workforce to provide the best care possible.

Accountability We believe it is our responsibility to be good stewards in the efficient and effective use of all human, fiscal, and material resources. We are dedicated to the continuous evaluation and improvement of the public mental health system.

Collaboration We believe that services and supports are the shared responsibility of state and local governments, communities, family members, and service providers. Through open communication, we continuously build relationships and partnerships with the people and families we serve, communities, governmental/nongovernmental entities and other service providers to meet the needs of people and their families.

Integrity We believe the public mental health system should act in an ethical, trustworthy, and transparent manner on a daily basis. We are responsible for providing services based on principles in legislation, safeguards, and professional codes of conduct.

Awareness We believe awareness, education, and other prevention and early intervention strategies will minimize the behavioral health needs of Mississippians. We also encourage community education and awareness to promote an understanding and acceptance of people with behavioral health needs.

Innovation We believe it is important to embrace new ideas and change in order to improve the public mental health system. We seek dynamic and innovative ways to provide evidence-based services/supports and strive to find creative solutions to inspire hope and help people obtain their goals.

Respect We believe in respecting the culture and values of the people and families we serve. We emphasize and promote diversity in our ideas, our workforce, and the services/supports provided through the public mental health system.

Statutory Authority of the Department of Mental Health

The Mississippi Department of Mental Health was created in 1974 by an Act of the Mississippi Legislature, Regular Session, as outlined in Sections 41-4-1 et seq. of the Mississippi Code of 1972, Annotated. The statute placed into one agency mental health, alcohol/drug abuse, and intellectual and developmental disabilities programs which had previously been under the direction of the State Board of Health, the Interagency Commission on Mental Illness and Intellectual and Developmental Disabilities, the Board of Trustees of Mental Institutions, and the Governor's Office. The statute also addresses the Department of Mental Health's responsibilities concerning services for persons with Alzheimer's disease and other dementia.

The **network of services** comprising the public system is delivered through **three major components:**

State-operated programs The four state comprehensive behavioral health programs, the five IDD regional programs, a mental health community living program, and two specialized programs for adolescents. These programs serve designated counties or service areas in the State and provide inpatient psychiatric, chemical dependence, forensic, limited medical/surgical hospital services, some community mental health services in areas near the state comprehensive psychiatric hospitals, intermediate care program services for persons with intellectual and developmental disabilities, and a range of community services for persons with developmental disabilities. Nursing services are also located on the grounds of two of the state comprehensive psychiatric programs.

Regional community mental health/mental retardation centers operate under the supervision of regional commissions appointed by county boards of supervisors comprising their respective service areas. The 14 regional centers make available a range of community-based mental health, substance abuse, and in some regions, intellectual and developmental disabilities services. The governing authorities are considered regional and not state-level entities. The Department of Mental Health is responsible for certifying, monitoring, and assisting the regional community mental health centers. These regional community mental health centers are the primary service providers with whom the Department of Mental Health contracts to provide community-based mental health and substance abuse services.

Other nonprofit service agencies/organizations, which make up a smaller part of the service system, are certified and may also receive funding through the Department of Mental Health to provide community-based services. Many of these non-profit agencies may also receive additional funding from other sources. Programs currently provided through these nonprofit agencies include community-based alcohol/drug abuse services, community services for persons with developmental disabilities and community services for children with mental illness or emotional problems.

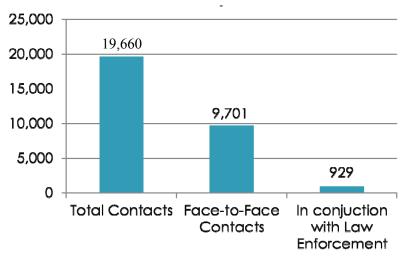

Mobile Crisis Response Teams

In an effort to expand crisis services in the community, DMH provided grants to the 14 Community Mental Health Centers to establish Mobile Crisis Response Teams. Mobile Crisis Response Teams provide communitybased crisis services that deliver solution -focused and recovery-oriented behavioral health assessments and stabilization of crisis in the location where the individual is experiencing the crisis.

Mobile Crisis Response Teams work hand-in-hand with local law enforcement, Chancery Judges and Clerks, and the Crisis Stabilization Units to ensure a seamless process. Without mobile crisis intervention, an individual experiencing a crisis may be inappropriately and unnecessarily placed in a jail, holding facility, hospital, or inpatient treatment program. The goal is to respond in a timely manner to where the individual is experiencing the crisis or meet the individual at a designated location such as the local hospital.

Wraparound Facilitation for Children and Youth

In partnership with the Division of Medicaid and the University of Southern Mississippi's School of Social Work, DMH created the Mississippi Wraparound Initiative (MWI) to train, support and sustain high-fidelity Wraparound in the State. Wraparound Facilitation is family and youth guided and provides intensive services to allow children and youth to remain in their homes and community.

In FY15, 360 Wraparound Facilitators were trained. Seven (7) DMH certified providers served 1,419 children/youth with Wraparound Facilitation.

Programs of Assertive Community Treatment Teams

Mississippi now has eight PACT Teams operated by the following Community Mental Health Centers: Warren-Yazoo Mental Health Services, Life Help, Pine Belt Mental Health (operates two PACT - one on the Gulf Coast), Hinds Behavioral Health, Weems Community Mental Health Center, Region III Mental Health Center and Timber Hills Mental Health Services. PACT is a mental health service delivery model for facilitating community living, psychological rehabilitation and recovery for persons who have the most severe and persistent mental illnesses and have not benefited from traditional outpatient services.

As of June 30, 2015, a total of 173 people are receiving PACT services.

Certified Peer Support Specialists

Mississippi's Certified Peer Support Specialist (CPSS) Trainers conducted five Certified Peer Support Specialist Trainings in FY15. The CPSS Training is an intensive 34 hour course followed by a written exam. Currently, there are 141 CPSS in Mississippi. CPSSs are individuals who self identify as a family member or an individual who received or is currently receiving mental health services. Upon completion of the training, successfully passing the CPSS examinations, and obtaining employment by a DMH certified provider, participants become Certified Peer Support Specialists. The CPSS Program provides acknowledgment that the peer has met a set of requirements necessary to provide support to individuals with mental health, substance use, intellectual and developmental disabilities, and/or family members. The training and certification process prepares CPSSs to promote hope, personal responsibility, empowerment, education, and self-determination in the communities in which they serve. Under the general supervision of a mental health professional, a CPSS may perform a wide range of peer support services. CPSSs are first degree family members and/or people living in recovery with mental illness, substance use, and intellectual and developmental disabilities who provide support to others who can benefit from their lived experiences.

Supported Employment

DMH believes that work plays a critical role in improving quality of life and mental health outcomes of the people we serve as part of their recovery journey. In January 2015, DMH provided funding to develop four pilot sites to offer Supported Employment to 75 individuals with mental illness. The sites are located in Community Mental Health Center Regions 2, 7, 10 and 12. Supported employment, an evidenced-based way to help people diagnosed with

mental illnesses secure and keep employment, begins with the idea that every person with a serious mental illness is capable of working competitively in the community.

At the end of June 30, 2015, after 4 months of implementation, the DMH Supported Employment Pilot Program had assisted 22 individuals on their road to recovery by helping them to become employed in the openly competitive job market.

Certification of Providers

In addition to the provision of services through the public mental health system, DMH is responsible for the supervision, coordination and establishment of standards for the operations and activities of the public mental health system. Through the Bureau of Quality Management, Operations and Standards, DMH develops standards of care for all certified providers; approves community-based agencies to provide mental health, intellectual/developmental disabilities and substance use services throughout the state; and certifies the provision of mental health, intellectual/developmental disabilities and substance use services.

DMH Certified Providers	94
New or Additional Service Certifications	37
On-site Monitoring Visits Conducted	145

Office of Consumer Support

The Office of Consumer Support (OCS) serves as the point of contact for DMH for information/referral and for expressing grievances and concerns. In FY15, OCS received just over 4,602 documented calls directly through the DMH Helpline and National Suicide Prevention Lifeline. OCS continues to contract with the National Suicide Prevention Lifeline as a network provider in Mississippi for crisis intervention, suicide prevention, and information/referral. Also in FY15, OCS responded to and assisted with the resolution of approximately 288 grievances related to the experiences of individuals receiving or seeking services.

IDD Crisis Intervention

Boswell Regional Center is the first regional center to offer Crisis Intervention Services for individuals with IDD. The SUCCESS Program began in March 2014. The focus is to assist people in crisis situations to become more self-reliant. During FY15, the SUCCESS Program provided services to 28 people.

Strategic Planning

In FY15, DMH focused on aligning its' agency strategic plan with the State of Mississippi's strategic plan, *Building a Better Mississippi*. DMH changed the structure of the Plan to follow the format developed by the Legislative Budget Office and PEER.

Using the mission, vision, and values, the Board of Mental Health, with feedback from numerous partners, developed three-year goals to clarify the transformation of the DMH service system. The goals will guide DMH's actions in moving toward a community

-based service system. Each goal's objectives include outcomes and strategies. In addition, the software program used to track and document progress provides a much more workable and transparent mechanism for the process.

GOAL 1

To increase access to community-based care and supports for adults and children with mental illness and/or substance use disorders through a network of service providers that are committed to a person-centered and recovery-oriented system of care

GOAL 2

To increase access to community-based care and supports for people with intellectual and/or developmental disabilities through a network of service providers that are committed to a person-centered system of care

GOAL 3

To ensure people receive quality services in safe settings and utilize information/data management to enhance decision making and service delivery

The Bureau of Alcohol and Drug Services maintains a statewide comprehensive system of substance use services of prevention, treatment and rehabilitation and promotes quality care, costeffective services and ensures the health and welfare of individuals through the reduction of substance use.

FY 2015 Services

Services Provided	Number Served
Community-based adult primary residential services	2,108
Community-based adolescent primary residential services	263
Inmates at the MS Department of Corrections	305
Community-based adult transitional residential services	449
Community-based general outpatient services	4,419
Community-based adult intensive outpatient services	293
Community-based recovery supports	602
Adult co-occurring services	8,389
Vocational rehabilitation services for transitional treatment services	756
DUI offenders admitted to and completed treatment	193

Funding for Substance Use Services in Mississippi

Funding Source	Funding Amount
Federal Substance Abuse Block Grant	\$13,705,865
State 3% Tax on Liquor and Wine	\$6,691,056
General Fund	\$412,939

The **state behavioral health programs** are administered by the Department of Mental Health. These programs offer residential and/or community services for mental health, substance use, and Alzheimer's disease and other dementia. The programs are administered by the Bureau of Mental Health.

Crisis Stabilization Units (CSUs) offer time-limited residential treatment services designed to serve adults with severe mental health episodes that if not addressed would likely result in the need for inpatient care. The community-based service setting provides intensive mental health assessment and treatment. Follow-up outreach and aftercare services are provided as an adjunct to this service.

Regional Community Mental Health Centers (CMHCs) operate under the authority of gional commissions appointed by county boards of supervisors comprising their respective service areas. The 14 CMHCs, as well as private DMH Certified Providers who are certified as CMHCs, make available a range of community-based mental services, as well as health substance use and intellectual and developmental disabilities services to all 82 counties.

DMH is responsible for certifying, monitoring and assisting the CMHCs. The CMHCs are the primary service providers with whom DMH contracts to provide community-based services.

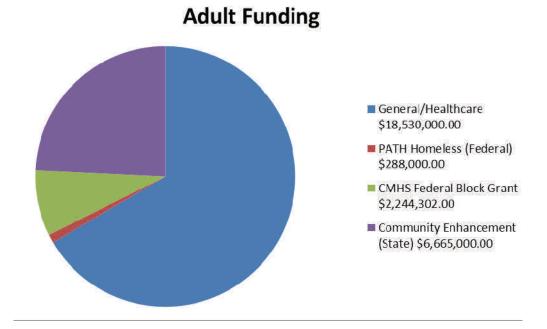

In FY15, services were provided to 62,309 adults and 35,221 children/youth in Mississippi.

Total individuals served: 97,530 (unduplicated)

Alzheimer's Disease and Other Dementia

DMH is responsible for counseling, education and training for family members, caregivers and service providers. The Division of Alzheimer's Disease and Other Dementia has field offices located in Tupelo, Magee, Long Beach and the Central Office in Jackson. According to the Alzheimer's Association, an estimated 53,000 Mississippians are diagnosed with Alzheimer's disease.

The Mississippi State Strategic Plan for Alzheimer's Disease and Other Dementias 2015-2020 was released at the 15th Annual Conference on Alzheimer's Disease and Psychiatric Disorders in Older Adults. FY15 launched the development of implementation plans for goals reflected in the Plan. Plan components were reviewed at the Annual Alzheimer's Summit in December 2014. The Plan is a collaborative effort between DMH, the Alzheimer's Association Mississippi Chapter and the UMMC Mind Center with over 40 contributors from the public and private sectors including family caregivers.

Law Enforcement Training Initiative

Inclusion of the training course entitled, Older Adults, Dementia, Elder Abuse, and Silver Alert into the mandatory Basic Training Curriculum required at all Law Enforcement Training Academies. This is collaboration between DMH, Department of Public Safety, Itawamba Community College, Alzheimer's Association MS Chapter, DHS Division of Aging and Adult Services, AARP of Mississippi, and the Mississippi Gerontological Socie-

ty. Inclusion of the course was piloted in December 2014 and approved for inclusion in January 2015.

Training figures include pilot trainings.

Transitions to t	he Community
15)

Early Intervention

Services are provided to children birth to age three who have an intellectual and/or developmental disability (IDD) or who are at risk for such. Services include comprehensive and multidisciplinary evaluations, speech/language therapy, occupational therapy, physical therapy, and educational interventions. The program is in collaboration with the Mississippi Department of Health's First Steps Early Intervention Program. In FY 2015, 562 individuals were served.

Work Activity Centers

Work Activity Centers are provided for individuals 16 years and older who have IDD. The service assists individuals in increasing their productivity and self-sufficiency and provides opportunities for community integration. In FY 2015, 887 individuals were served.

Case Management

Services assist individuals with IDD in gaining access to any needed social, medical, and/or educational services in order to live successfully in the community. In FY 2015, 365 individuals were served.

Community Living

Services are provided to offer needed supervision, monitor health and physical conditions, and assist with activities of daily living. Community Living provides different levels of assistance ranging from 24 hours a day, seven days a week to weekly contact. This service includes supported living and supervised living. This number does not include ICF/IID Community Homes which are listed under each Regional Center. **In FY 2015, 759 individuals were served.**

Supported Employment

Supported Employment services are designed to increase the independence, community integration, and productivity of people by assisting them in finding and keeping community employment. The service consists of such elements as recruitment of individuals from other services to competitive employment, job finding, matching the individual to appropriate jobs, and employment maintenance. In FY 2015, 327 individuals were served.

Home and Community Supports

Services are provided to meet the daily living requirements of individuals and to help ensure adequate support so the individuals can be maintained at home or in the community. In FY 2015, 1,210 individuals were served.

Day Services - Adult

Day Habilitation is a community program for people who typically are more severely involved and require a greater degree of assistance with activities of daily living. In FY 2015, 692 individuals were served.

In-Home Nursing Respite

In-home Nursing Respite services are provided to individuals on a short-term basis for the purpose of giving the family a break. In FY 2015, 198 individuals were served.

Occupational Therapy, Physical Therapy and Speech/Language Therapy

These therapies are provided by therapists licensed according to state law for their respective duties and regulations and are approved Medicaid providers. In FY 2015, 19 individuals were served.

Prevocational Services

Services are designed to lead to vocational skill development in order to obtain community employment. In FY 2015, 1,071 individuals were served.

Support Coordination

Services are designed to assist individuals in accessing services in the community which meet their individual needs and prevent or delay placement away from their home and community. In FY 2015, 2,296 individuals were served.

Supervised Residential Habilitation

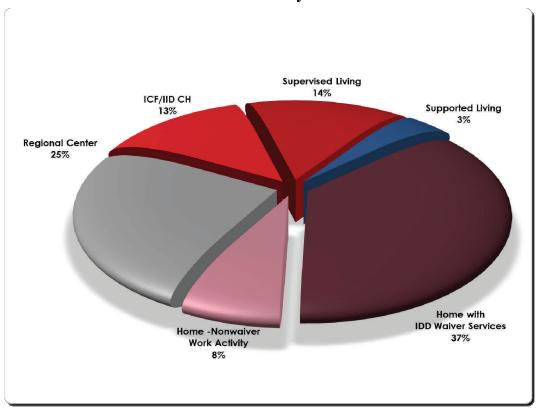

Services provide 24 hours a day, seven days a week on-site support and supervision for individuals living in the community. In FY 2015, 544 individuals were served.

Supported Employment

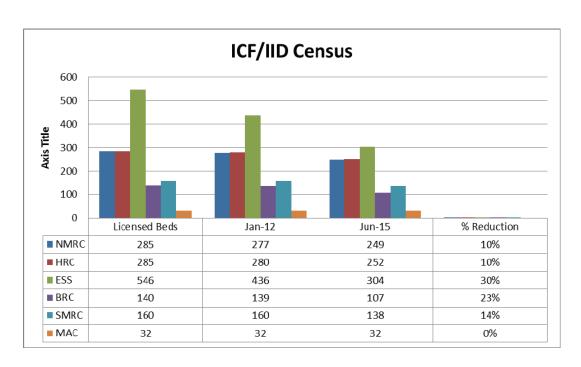

Services are designed to increase independence, community integration and productivity of individuals with intellectual/ developmental disabilities by assisting them with finding and maintaining community employment. In FY 2015, 237 individuals were served.

Serving Individuals With Intellectual and Developmental Disabilities

Where Do They Live?
