## **Introduction**

The Mississippi Department of Mental Health (DMH) certifies, provides and/or financially supports a network of services for people with mental illness, intellectual/developmental disabilities, substance use disorders and/or other dementia. It is DMH's goal to improve the lives of Mississippians by supporting a better tomorrow...one person at a time.

The MS Department of Mental Health (DMH) seeks to contract with one vendor as an independent contractor to provide youth leadership services for DMH's Crossover XPand System of Care (SOC) project. The Crossover XPand SOC project is proposing to expand current and graduated System of Care (SOC) programs in two jurisdictions served by Pine Belt Mental Healthcare Resources and Weems Community Mental Health by prioritizing underserved children and youth who are involved in the child welfare/advocacy system and/or the juvenile justice system, referred to as "crossover youth," and those at risk for becoming crossover youth, and their families. The priority children and youth will have a diagnosed serious emotional disorder (SED), co-occurring disorder (COD), or first episode of psychosis (FEP), be ages 3 -21, reside in Forrest, Jones, Lauderdale, or Marion Counties in Mississippi, and be involved with child protection services and/or juvenile justice, or be at risk for involvement.

The goals of Crossover XPand SOC are: 1) to expand Mississippi's SOC by targeting at risk and crossover youth (ages 3-21) with SED/COD/FEP and their families and expanding integrated care with evidence-based interventions; 2) to increase awareness of, and community commitment to, the mental health issues of at risk and crossover youth; 3) to improve organizational and systemic capacity to serve at risk and crossover youth with SED/COD/FEP across five levels of care; 4) to expand youth and family roles as full and equal partners within an integrated system of care; and 5) to use continuous quality improvement to drive and sustain effective service delivery for replication. Crossover XPand SOC will annually engage a minimum of 100 at risk or crossover youth, for a total of 400 youth over the entire project period. Other objectives include improving time to engage youth by integrating services at strategic intercept points, expanding access to care, and creating a skilled trauma-focused workforce.

**C-2c. Family-Driven, Youth Guided/Directed.** The proposed project will adhere to the SOC guiding principles of family driven, youth guided service delivery. Shifting from a provider driven service model to a family driven, youth guided service delivery model was initially a challenging process. Through lessons learned and training, the previous SOC initiative made great strides by meaningfully engaging youth and family as partners in shared decision making roles. These strides were shown in outcomes from evaluations including 95.5% of youth and families reported participation in their service plans. It is recognized that the likelihood of successful outcomes and youth and family ownership of the individualized plan are increased when the treatment process reflects youth and family members' priorities and perspectives and strengths.

Additionally, through the Wraparound model, youth and family will steer care planning by determining an overall vision of how the youth and family will know when things have improved. Project staff will support the youth and family in identifying the composition of the team, goals, developing desired outcomes and specific needs, and having a meaningful role in all decisions. No decisions will be made about individualized plans without youth and parent/ caregiver participation. This will then lead them to implementation. Youth/Family/Caregiver Peer Support Specialists will be available in each county to participate in Wraparound team meetings and for advocacy as needed. The Wraparound Facilitators will also have a primary role in ensuring that all services are determined by families, driven by underlying needs, grounded by a strengths perspective, and supported by an effective team process.

Once families and youth are given the tools, skills, responsibilities and supports to become equal partners on all levels; true family driven, youth guided services can be obtained. An example of this on the local level was a marketing campaign created by the youth and families in the previous system of care initiative, "You Take the Wheel". The campaign's goal was to engage other parents and youth in the project by emphasizing families and youth to "take the wheel" in steering services and supports for their families. From the concept, price range, wording to the colors of the brochures, it was done with very little involvement from the staff.

The families and youth were so proud of this accomplishment and empowered to take on more responsibilities, roles and ownership. This proposal hopes to continue the strides made on the local level and improve consistent family and youth engagement on the state level.

**C-2d. Involvement of Families & Youth.** This project will build upon the successes of family and youth involvement on the local level achieved through previous SOC initiatives. These successes included family and youth involvement in planning (what are the needs of the community, selecting furniture and wall decor for service delivery site, developing logic model), service delivery (family and youth support specialists), training (learning opportunities, planning and speaking at local, state and national conferences), governance (participation on local and state level), and evaluation (the regional evaluation coordinator and evaluation associates were all under the age of 25). As mentioned, results

from the family and youth focus groups held at PBMHR and Weems during the planning process of this grant centered on the importance of meaningful youth and family involvement in achieving positive, successful outcomes.

As with previous initiatives, family and youth will serve on the subcommittees of the local governance councils. The subcommittees included CLC, Social Marketing, Clinical/Training, and Evaluation. Involvement in the subcommittees assured youth and families were involved in all aspects of the project. The Family and Youth Coordinators will also collaborate and partner with other adult consumer and youth organizations to promote family and youth participation.

Although the previous SOC initiatives did a great job engaging youth and family m-on the local level, there were barriers to consistent leadership training and opportunities particularly at the state level. To address these barriers, efforts will be placed on enhancing and expanding the promotion of families as leaders and voice of experiences. These include: a) hosting leadership academies for family and youth partnering with other key youth and family organizations from other systems, TA Partners (Youth Move National) and Peer Advocacy groups; b) offering trainings on topics of interest to the families and community; c) identifying leadership and advocacy roles for youth and families; d) increasing opportunities for networking and connections; e) utilizing Certified Peer Support Specialists involved in previous SOC initiatives; f) creating Statewide Parent Advisory Board; and g) resuming the State Level Youth Move Chapter and increasing the number of local chapters.

Satisfaction surveys will also be administered to youth and family receiving services to gauge successes and barriers of the project. The information collected will assist project modifications and enhancements.

**C-2f. Sustaining Mechanisms Promoting & Sustaining Participation of Youth & Families.** As a result of past experience with SOC's across the state, MS DMH and its partners, PBMHR and Weems, have an appreciation of youth's and families' value as equal partners and important contributors to all aspects of the projects. Youth and families are not to be "tokenized," but coached and empowered to make decisions, set goals, develop action strategies, facilitate activities, and evaluate outcomes and processes. They are considered valued and critical partners in the SOC.

This proposal will use lessons learned from the previous and present SOC projects to assist in promoting and sustaining participation of Youth and Families:

1. Give youth and families ownership of program and decision making responsibility in services and supports for their family. The youth and families adopted the phrase, "Our Voice, Our Choice."
2. Youth and Family Peer Support Specialists were invaluable. Sharing lived experience and hope to others is so empowering.
3. Ensure youth and families have opportunities for involvement in diverse activities based on their interests and backgrounds.
4. Provide opportunities for youth and families to learn leadership skills and advocate for themselves and others.
5. Emotional and physical safety are key. Youth and families must feel safe. This

includes not tolerating or accepting violence, aggression or bullying due to gender, ability ethnicity or sexual orientation.

6. Involve youth in service opportunities to improve their connections to the community.
7. Access and transportation to program are very important.
8. Family involvement is also important in retaining youth. The more involved the family, the more likely the youth will attend the program.
9. Hiring staff that are caring, respectful and relatable speaks volume to the youth and families. It is also important for staff to reflect the diversity of the participants and community.

### **C-2h. Training/Workforce Development.**

3. Development of youth and family leadership. Although the previous SOC initiatives did a great job engaging youth and family in service delivery, there were barriers to consistent leadership training and opportunities particularly at the state level. To address these barriers, efforts will be placed on enhancing and expanding the promotion of families as leaders and voice of experiences. These include: a) hosting leadership academies for family and youth partnering with key youth and family organizations from other systems, TA Partners (Youth Move National) and Peer Advocacy groups; b) offering trainings on topics of interest to the families and community; c) identifying leadership and advocacy roles for youth and families; d) increasing opportunities for networking and connections; e) utilizing Certified Peer Support Specialists involved in previous SOC initiatives; f) creating Statewide Parent Advisory Board; and g) resuming the State Level Youth Move Chapter and increasing the number of local chapters.

31. **Termination** The DMH may terminate this Contract with or without cause upon ten (10) days written notice to the Contractor. The Contractor may terminate this Contract with cause upon thirty (30) days written notice to the DMH. In the event of termination of the Contract by either party, any revenue generated from participant registration fees or exhibitors not required to defray actual expenses incurred must be returned to the participant/exhibitor within 30 calendar days of termination. Upon written notice termination, an accounting of revenue and actual expenditures must be provided to DMH.

A. Termination for Convenience:

(1) *Termination.* The DMH Executive Director or designee may, when the interests of the State so require, terminate this contract in whole or in part, for the convenience of the State. The DMH Executive Director or designee shall give written notice of the termination to Contractor specifying the part of the contract terminated and when termination becomes effective.

(2) *Contractor's Obligations.* Contractor shall incur no further obligations in connection with the terminated work and on the date set in the notice of termination Contractor will stop work to the extent specified. Contractor shall also terminate outstanding orders and subcontracts as they relate to the terminated work. Contractor shall settle the liabilities and claims arising out of the termination of subcontracts and orders connected with the terminated work. The DMH Executive Director or designee may direct Contractor to assign Contractor's right, title, and interest under terminated

orders or subcontracts to the State. Contractor must still complete the work not terminated by the notice of termination and may incur obligations as are necessary to do so.

#### B. Termination for Default

(1) *Default.* If Contractor refuses or fails to perform any of the provisions of this contract with such diligence as will ensure its completion within the time specified in this contract or any extension thereof, or otherwise fails to timely satisfy the contract provisions, or commits any other substantial breach of this contract, the DMH Executive Director or designee may notify Contractor in writing of the delay or nonperformance and if not cured in ten (10) days or any longer time specified in writing by the DMH Executive Director or designee, such officer may terminate Contractor's right to proceed with the contract or such part of the contract as to which there has been delay or a failure to properly perform. In the event of termination in whole or in part, the DMH Executive Director or designee may procure similar supplies or services in a manner and upon terms deemed appropriate by the DMH Executive Director or designee. Contractor shall continue performance of the contract to the extent it is not terminated and shall be liable for excess costs incurred in procuring similar goods or services.

(2) *Contractor's Duties.* Notwithstanding termination of the contract and subject to any directions from the procurement officer, Contractor shall take timely, reasonable, and necessary action to protect and preserve property in the possession of Contractor in which the State has an interest.

(3) *Compensation.* Payment for completed services delivered and accepted by the State shall be at the contract price. The State may withhold from amounts due Contractor such sums as the DMH Executive Director or designee deems to be necessary to protect the State against loss because of outstanding liens or claims of former lien holders and to reimburse the State for the excess costs incurred in procuring similar goods and services.

(4) *Excuse for Nonperformance or Delayed Performance.* Except with respect to defaults of subcontractors, Contractor shall not be in default by reason of any failure in performance of this contract in accordance with its terms (including any failure by Contractor to make progress in the prosecution of the work hereunder which endangers such performance) if Contractor has notified the DMH Executive Director or designee within 15 days after the cause of the delay and the failure arises out of causes such as: acts of God; acts of the public enemy; acts of the State and any other governmental entity in its sovereign or contractual capacity; fires; floods; epidemics; quarantine restrictions; strikes or other labor disputes; freight embargoes; or unusually severe weather. If the failure to perform is caused by the failure of a subcontractor to perform or to make progress, and if such failure arises out of causes similar to those set forth above, Contractor shall not be deemed to be in default, unless the services to be furnished by the subcontractor were reasonably obtainable from other sources in sufficient time to permit Contractor to meet the contract requirements. Upon request of

Contractor, the DMH Executive Director or designee shall ascertain the facts and extent of such failure, and, if such officer determines that any failure to perform was occasioned by any one or more of the excusable causes, and that, but for the excusable cause, Contractor's progress and performance would have met the terms of the contract, the delivery schedule shall be revised accordingly, subject to the rights of the State under the clause entitled "Termination for Convenience" in fixed price contracts and "Termination" in cost-reimbursement contracts.

(5) *Erroneous Termination for Default.* If, after notice of termination of Contractor's right to proceed under the provisions of this clause, it is determined for any reason that the contract was not in default under the provisions of this clause, or that the delay was excusable under the provisions of Paragraph (4) (Excuse for Nonperformance or Delayed Performance) of this clause, the rights and obligations of the parties shall, if the contract contains a clause providing for termination for convenience of the State, be the same as if the notice of termination had been issued pursuant to such clause.

(6) *Additional Rights and Remedies.* The rights and remedies provided in this clause are in addition to any other rights and remedies provided by law or under this contract.

### C. Termination Upon Bankruptcy

This contract may be terminated in whole or in part by DMH upon written notice to Contractor, if Contractor should become the subject of bankruptcy or receivership proceedings, whether voluntary or involuntary, or upon the execution by Contractor of an assignment for the benefit of its creditors. In the event of such termination, Contractor shall be entitled to recover just and equitable compensation for satisfactory work performed under this contract, but in no case shall said compensation exceed the total contract price.

32. **Waiver** No delay or omission by either party to this agreement in exercising any right, power, or remedy hereunder or otherwise afforded by contract, at law, or in equity shall constitute an acquiescence therein, impair any other right, power or remedy hereunder or otherwise afforded by any means, or operate as a waiver of such right, power, or remedy. No waiver by either party to this agreement shall be valid unless set forth in writing by the party making said waiver. No waiver of or modification to any term or condition of this agreement will void, waive, or change any other term or condition. No waiver by one party to this agreement of a default by the other party will imply, be construed as or require waiver of future or other defaults.
33. **Attorney's Fees and Expenses** Subject to other terms and conditions of this agreement, in the event Contractor defaults in any obligations under the agreement, Contractor shall pay to the State all costs and expenses (including, without limitation, investigative fees, court costs, and attorney's fees) incurred by the State in the enforcing of this agreement or otherwise reasonably related thereto. Contractor agrees that under no circumstances

shall the customer be obligated to pay any attorney's fees or costs of legal action to the Contractor.

34. **Insurance**

The contractor shall maintain at least the minimum level of workers' compensation insurance, comprehensive general liability or professional liability insurance with minimum limits of \$500,000 per case. The Mississippi Department of Mental Health reserved the right to request from carriers, certificates of insurance regarding the required coverage. Insurance carriers must be licensed or hold a Certificate of Authority from the Mississippi Department of Insurance. The vendor shall be prepared to provide evidence of required insurance upon request by DMH at any point during the contract period and should consult with legal counsel regarding its obligations.

35. **Entire Agreement** This Contract constitutes the entire agreement of the parties with respect to the subject matter contained herein and supersedes or replaces any and all prior negotiations, understandings and agreements, written or oral, between the parties relating thereto.

This Contract has been entered into and executed by DMH and XXXXXXXX hereto as of the day and year first above written.
