Data Source: Monthly self-reports submitted from State Hospitals to DMH via partial data extraction from hospital Electronic Health Records systems, supplemented with electronic and manual collection, review and reporting methods

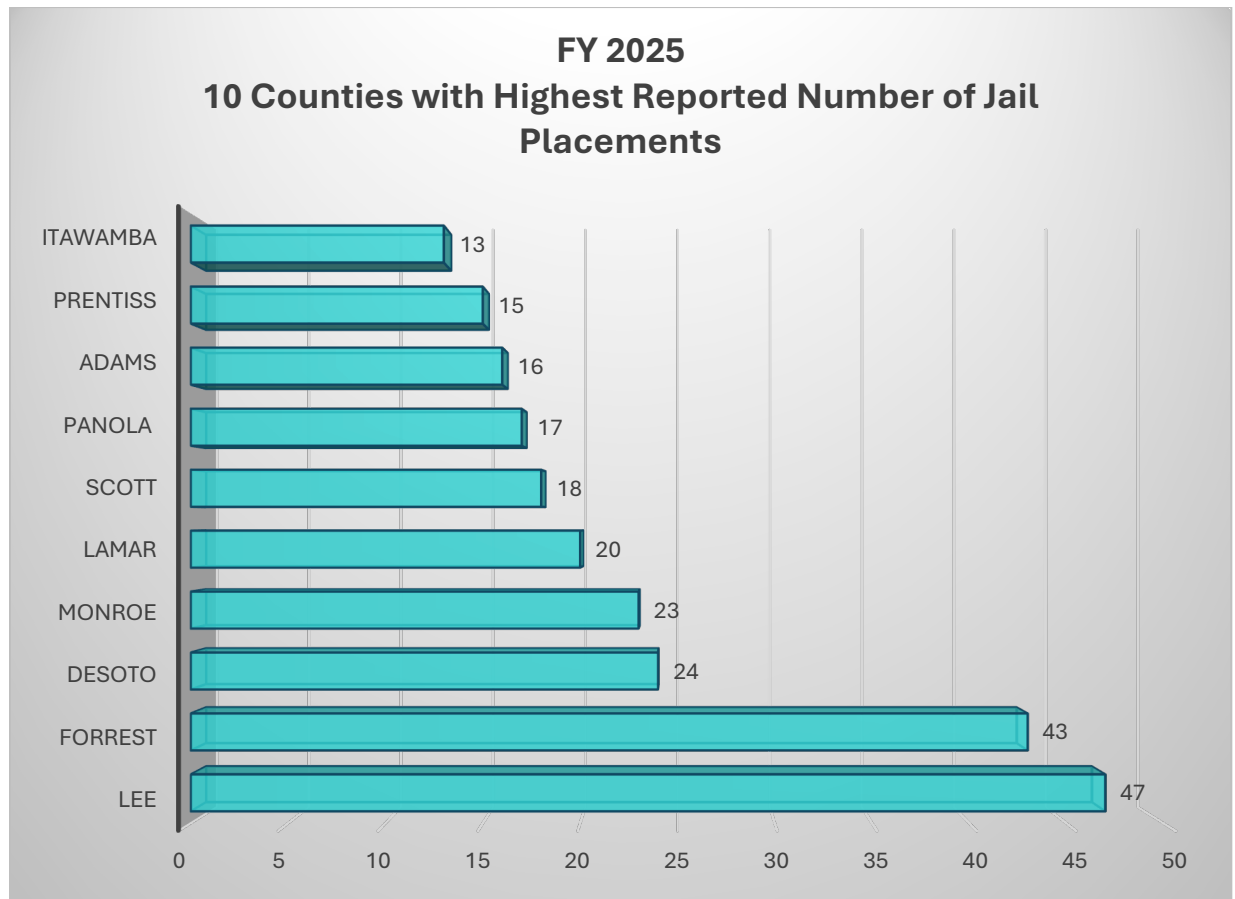

Additional Report Information: This report consists of data reflecting the numbers of individuals who were admitted to a State Hospital who, prior to their hospital admissions, had been waiting in jail for an acute psychiatric commitment. This information is estimated to be an unduplicated count of admissions. By county, CMHC region, and each individual State Hospital, this report delineates the number of individuals reported to be in jail prior to hospital admission and the corresponding average number of days in jail. The report also provides the overall total number of individuals awaiting admission and the overall average wait time in jail among all four hospitals.

Top 3 Regions with Significant Referral Changes:

1. Region 4: 105 referrals → 33 referrals (-72, -69% decrease)
2. Region 2 : 52 referrals → 27 referrals (-25, -48% decrease)
3. Region 3 : 81 referrals → 66 referrals (-15, -19% decrease)

Top 3 Regions with Significant Days in Jail Changes:

1. Region 4: 318 days → 53 days (-265, -83% decrease)
2. Region 2: 193 days → 42 days (-151, -78% decrease)
3. Region 3: 223 days → 104 days (-119, -53% decrease)

Top 5 Counties with Significant Referral Changes:

1. Yalobusha County: 5 referrals → 0 referrals (-5, -100% decrease)
2. Tishomingo County: 13 referrals → 2 referrals (-11, -85% decrease)
3. DeSoto County: 68 referrals → 16 referrals (-52, -76% decrease)
4. Calhoun County: 10 referrals → 3 referrals (-7, -70% decrease)
5. Lafayette County: 13 referrals → 4 referrals (-9, -69% decrease)

Top 5 Counties with Significant Days in Jail Changes:

1. Tishomingo County: 33 days → 1 day (-32, -97% decrease)
2. Lafayette County: 56 days → 4 days (-52, -93% decrease)
3. DeSoto County: 231 days → 32 days (-199, -86% decrease)
4. Marshall County: 29 days → 5 days (-24, -83% decrease)
5. Lee County: 118 days → 55 days (-63, -53% decrease)

NMSH Admission Analysis

Comparing FY24 admissions data to FY25:

- Total admissions decreased by 7%
- Admissions from CSUs increased by 21%
- Admissions from Jail decreased by 47%
- Total days in Jail decreased by 73%
- Admissions from SLC increased by 48%
- Admissions from other locations decreased by 4%

Mississippi = 2,943,045
U.S. = 340,110,988

CRISIS RESIDENTIAL UNIT DATA REVIEW:

Crisis Residential Units (CRUs) offer time-limited residential treatment services designed to serve adults with severe mental health episodes that if not addressed would likely result in the need for inpatient care.

The community-based service setting provides intensive mental health assessment and treatment. Follow-up outreach and aftercare services are provided as an adjunct to this service.

CRUs are partially funded through DMH grants to the Community Mental Health Centers and can receive Medicaid reimbursement.

Prior to 2019, the state had eight, 16-bed CRUs. In FY19, DMH began shifting funding from DMH-operated behavioral health programs to allow additional CRU beds to open in CMHC regions that did not have CRUs. As of September 2025, there are 196 DMH Certified CRU beds in Mississippi.

The total number of denials referenced in this report are captured as “true denials” which is an individual that has a serious mental illness; however, has an issue that prevents the CRU from serving that individual at the CRU due to their own safety or the safety of others.

A “general denial” is someone who does not meet the requirements due to being underage, not having a serious mental illness that is the primary presenting issue, or the CRU is at full capacity. Those are not captured in the number of denials or the denial rate.

CRU data in this report is captured through each respective CMHC’s Electronic Health Record (EHR) to the Mississippi Department of Mental Health Data Repository referred to as the Data Warehouse (DWH). This is the database used by the Community Mental Health Centers to capture data.

**Due to issues between the Region 12 electronic health record system and the Data Warehouse, admission data for these CRUs is provided through monthly paper reports.*

***The Gautier/Moss Point CRU did not accept admissions for June 2025 and closed.*

*Re-admissions and re-admission rates refer to re-admissions to a state hospital.

**Differs from what was reported in Strategic Plan (751) because that was a total of unduplicated. When reported broken down by CMHC, the data includes people who could have been served at more than one CMHC.
