

Mississippi Department of Mental Health Provider Bulletin Number PR0160

Subject: The 2024 Support Coordination Manual supersedes the 2022 DMH Record Guide	Issue Date: 01/31/2025 Effective Date: 12/01/2024
--	---

Scope

All certified IDD Support Coordination Providers, ID/DD Waiver Service Providers

Purpose

To inform ID/DD Waiver service providers that when guidance provided in the 2024 Support Coordination Manual and the 2022 DMH Record Guide conflict, the information in the Support Coordination Manual supersedes the information in the Record Guide.

Background

The revision of the *Operational Standards for Mental Health, Intellectual and Developmental Disabilities and Substance Use Disorders Community Service Providers* (DMH Operational Standards) made it necessary to revise the Support Coordination Manual effective December 1, 2024. Currently, the 2022 DMH Record Guide has not been updated. Therefore, if any information/guidance is conflicting within these two documents, the guidance found in the Support Coordination Manual will supersede the guidance/information in the DMH Record Guide.

Subject

When guidance is covered in both the Support Coordination Manual (2024) and the DMH Record Guide (2022) and the information is conflicting, the Support Coordination Manual supersedes the DMH Record Guide.

If you have questions, contact Jamie Odom, Director of ID/DD Waiver at (601) 359-5797 or email jamie.odom@dmh.ms.gov.
